LONG BEACH THE VICTORS.

VARSITY GIRLS DIE HARD IN A CLOSE GAME.

Two Halves End in a Tie Game, but on Play-Off Beaters Score a Baseline and the Game—Struggle One of Endurance and Skill—Excellent Team Work on Both Sides.

The Long Beach High School basketball team defeated the girls' five of the University of Southern California in the final game of the season, on the Long Beach court yesterday afternoon by the score of 14 to 12.

The contest was the finest exhibition of clean, fast, scientific playing ever put up in the local history of the game. Team work and accuracy of throwing were excellent.

When the whistle blew at the close of the second half, each team had scored 12 points, and the game continued by mutual agreement. The High School girls, after the most exciting period of the game, secured a field goal and gained the coveted victory.

Star players by every member on both teams were frequently made, and the outcome was always in doubt. At the opening of the first half, the Varsity girls seemed a bit stale, and the Beach five secured a lead of three points before the visitors found themselves. The Methodists quickly gained a field goal, and a question of endurance and grit. By brilliant team work the university forged ahead, securing two baskets from the foul line and an additional field goal, making the score 6 to 5 in favor of the visitors at the close of the first half.

The second half opened auspiciously for the Methodists, and two field baskets were scored. The school girls then made a determined brace, and by a succession of quick passes and clever dodging, again took the lead by one point. The ball saw-sawed across the court, and more baskets for both sides were only prevented by the splendid defense put up by the guards. Miss Dawson secured her guard and gained a difficult basket, thus tying the score.

Miss Vauxhall scored the winning basket with a pretty one-handed throw.

By losing this contest, the Varsity girls are relegated to third place in the league, and Long Beach lands in second place.

Line-up of the teams:
Long Beach. Forward, Montgomery; Van Henssler forward; Hogan; Brown center; Thornton; Mueller guard; Armstrong; Dryden. Goals—From field, Montgomery, 3; Hogan, 2; Dawson, 2; Van Henssler, 1; From foul line, Montgomery, 2; Dawson, 1.
Fouls committed—By U.S.C., 12; by Long Beach, 16.
Referee—Miss Plummer.
Umpire—Miss Spencer.
Time of halves—Fifteen minutes.

HANDBALL TODAY.

TOURNAMENT OPENS.
Ten matches are scheduled to start the first handball tournament of the Los Angeles Athletic Club today in the club's courts, which have been renovated and put into the best of order for what is expected to prove the most successful event of its kind ever held in this state.

The play is of the round robin order, every contestant meeting every other at scratch. The series will give some definite "form" to figure handicaps for future events of the same sort.

Nearly all the contestants are in good condition and a hot fight for all the trophies, even including the coveted to-be-forgotten leather medal, is assured.

Today's matches will comprise battles between C. L. Moon and Adolph Frankel, Frank Garbutt and Samuel Hall, E. L. Hedderly and J. P. Amesbury, Gus Hill and Dick Dunnigan, Will Loomis and Pianoles Whelan, E. Brain and Lee Bradley, W. McKay and Will Graham, W. E. Brain and Charles Clemente, S. G. Wood and Dick Wellcome, Ray Dunnigan and Sam Parsons.

Outside desiring to see the matches can assure admission by securing a card from some member, or Assistant Secretary Hays at the club offices.

NEVER AGAIN, SAYS MCCAREY.

Fight Manager Replies to Assertion That He's Thinking of Bringing Nelson and Herrera Together.

Tom McCarey last night set at rest all speculation as to his future course regarding "Hurrah Scars" by giving out a statement that under no circumstances does he contemplate ever matching the saffron beauty before his club.

There was a rumor afloat during the day that the Pacific Athletic Club would take another whirl at the Nelson-Herrera match, but it appears the club was the least interested in the story, and knew less about it than any one else.

"I was in hopes this matter had been settled," said McCarey, "without having to declare myself over again, but you can go as strong as you like in saying that never again will Herrera fight before my club. I thought my action in ordering Jacobs, Mauro and Arellio out of my office and telling them never to enter it again, was enough to convince everyone that I meant what I said, and I will repeat that I am through with the whole lot. I have not even thought of such a thing as rematching Herrera with any one, and you can put it as coming from me that I never will."

Billy Nolan thinks the woods would be a proper place to let Herrera fight. When asked what his plans were for the future and if he would match the Dane against Herrera again, Nolan said that he would match him against anyone who could beat him, but that he would not match him against Herrera.

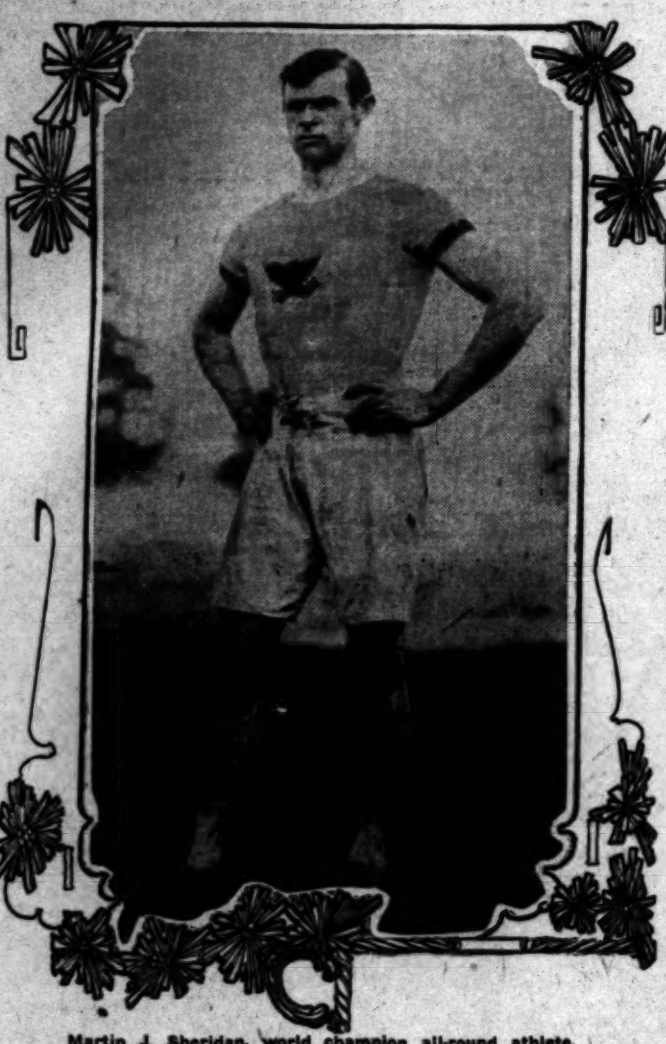

If proceedings are taken against the Mexican it will involve the yellow newspaper holding the money into litigation that promises to test the legality of contracts between fight managers.

PETE LOHMAN'S FAREWELL.

Old-Time Ball Player Is Taken to County Hospital—Fans Will Regret His Misfortune.

Pete Lohman, the veteran catcher, captain and manager of the Oakland team, was brought up from Ocean Park last night and taken to the County Hospital, his mind entirely gone. He will probably be examined on an insanity charge and sent to a private sanatorium.

It has been known for months that Lohman was in bad shape, but what a general opinion that his malady

Martin J. Sheridan, world champion all-round athlete.

was of a harmless nature, but rumors have been floating around the past week that he was becoming violent, and the necessity of taking him to the County Hospital probably confirms this. It is news that will be received with regret by every baseball fan on the Coast, for Pete has been a well-known figure in Coast baseball for many years, and was generally liked by both players and fans. He was of a scrappy nature on the ball field, but a gentle, pleasant fellow when there were no bats and balls around and no one to wrangle on baseball. It is said that he had by quite a good-sized bunch of money as a result of baseball, and will be well taken care of, but every fan will be sorry that dear old Pete has come to such an end.

BALL MEETING TODAY.

Present and Possible Managers Are to Confer as to the Future Control of Team.

This is to be the great day in local baseball circles for it is the time set for the meeting between Jim Jeffries, Tom McCarey and "Corney" Pendleton, to discuss the subjects as to whether or not McCarey and Jeffries want to manage the Dodgers. Pendleton had a short talk with Manager Leigh of the Chutes yesterday and while he was at this, McCarey was interviewing a friend who has expressed willingness to take stock in the new team. None of the parties to these conferences would unobscure as to the result of their meetings, but everything will be probably known today. McCarey is slated for the management of the team, no matter who finances it, and as this comes from "Corney" Pendleton, who owns the franchise here, it must be true.

MOTT MAKES ERRORS.

LOOLOS WIN THE GAME.
(BY THE ASSOCIATED PRESS—P.M.)
SEATTLE, May 31.—Inexorable errors by Mott and R. Hall gave the Los Angeles team the game today by a good margin. After the game was lost, C. Hall retired, and Bell pitched the remaining innings. Los Angeles played a brilliant third for Los Angeles.

Score: Seattle, 2; hits, 6; errors, 5. Los Angeles, 5; hits, 6; errors, 1. Batteries—C. Hall, Bell and Blankenship; Bergman and Bliss. Umpire—Fertig.

GREAT BALL.

NO RUNS TILL EIGHTH.
(BY THE ASSOCIATED PRESS—P.M.)
OAKLAND, May 31.—In a game that was full of excitement this afternoon the Seals stole a march upon Fresno, bunching their hits and tallying twice in the last half of the eighth inning.

Score: Seattle, 2; hits, 6; errors, 5. Los Angeles, 5; hits, 6; errors, 1. Batteries—C. Hall, Bell and Blankenship; Bergman and Bliss. Umpire—Fertig.

AMERICAN LEAGUE.

ELEVEN-INNING CONTEST.
(BY THE ASSOCIATED PRESS—P.M.)
CLEVELAND, May 31.—St. Louis defeated Cleveland in an eleven-inning game, Smith scoring the winning run on his triple and Hemphill's single.

Score: Cleveland, 3; hits, 12; errors, 1. St. Louis, 4; hits, 13; errors, 2. Batteries—Townsend, Hess and Clark; Smith and Spencer.

DETROIT TAKES TWO.

(BY THE ASSOCIATED PRESS—P.M.)
DETROIT, May 31.—Detroit took both parts of a double header from Chicago today. Inability to hit Killian consecutively beat Chicago in the opening game. In the second Patterson was taken out to let Davis bat with the bases full and Davis doubled, tying the score. Detroit won in the same inning after the two men were out, a triple, two bases on balls and Coughlin's single doing it. Score:

First game: Detroit, 4; hits, 5; errors, 3. Chicago, 2; hits, 6; errors, 1. Batteries—Randolph and Schmidt; Walsh and Sullivan.

Second game: Detroit, 6; hits, 11; errors, 0. Chicago, 4; hits, 8; errors, 2. Batteries—Stever and Payne; Smith, Patterson, Altrock and Sullivan.

CHAMPIONS LOSE.

(BY THE ASSOCIATED PRESS—P.M.)
NEW YORK, May 31.—By timely batting the local Americans won today's game from the league champions.

Score: Philadelphia, 3; hits, 8; errors, 2. New York, 7; hits, 10; errors, 0. Batteries—Dygart and Powers; Griffith and McGuire.

USED UP THREE PITCHERS.
(BY THE ASSOCIATED PRESS—P.M.)
BOSTON, May 31.—Boston used up three pitchers in an unsuccessful attempt to hold Washington to a close score today. Score:

Washington, 9; hits, 8; errors, 2.

Boston, 2; hits, 5; errors, 1. Batteries—Walkenburg and Wakefield; Young, Hughes, Peterson and Tannehill.

SAINTS SHUT OUT.

(BY THE ASSOCIATED PRESS—P.M.)
PITTSBURGH, May 31.—Not a St. Louis player reached third base today until the ninth inning, and then the team went down with the bases full. Score:

Pittsburgh, 3; hits, 7; errors, 1. St. Louis, 0; hits, 4; errors, 1. Batteries—Lever and Gibson; McFarland, Egan and McCarthy.

BROWN WEAKENS.

(BY THE ASSOCIATED PRESS—P.M.)
CINCINNATI, May 31.—Chicago secured a commanding lead in the first on errors by the locals, coupled with timely hitting. Brown was hit hard in the latter part of the game. Score:

Cincinnati, 3; hits, 9; errors, 6. Chicago, 5; hits, 16; errors, 0. Batteries—Choch and Schlie; Brown and Moran.

DOWN WENT M'GINITY.

(BY THE ASSOCIATED PRESS—P.M.)
PHILADELPHIA, May 31.—Philadelphia hit McGinnity hard and won today's game easily. Rain stopped the contest after the eighth. Score:

New York, 1; hits, 6; errors, 3. Philadelphia, 5; hits, 11; errors, 0. Batteries—McGinnity and Bowerman; Pittinger and Doolin.

PORTLAND STILL CLIMBING.

WINS GAME IN ELEVENTH.
(BY THE ASSOCIATED PRESS—P.M.)
PORTLAND (Ore.) May 31.—With the game all but won today, McCredie made an error in the ninth, and before the leak was stopped Oakland had tied the score with three runs. In the eleventh, a lucky batting streak netted the home team the winning run. Score:

Portland, 5; hits, 14; errors, 4. Oakland, 4; hits, 9; errors, 4. Batteries—Garvin, Calif and Donahue, Reddy; Graham and Hackett.

MUSIC AND THE STAGE.

Shakespeare.

Miss Constance Crawley is redoubtable though fire or earthquake assail her, and during the past month or two has given some artistic Shakespearean productions in Los Angeles—not the least effective of which was "The Two Gentlemen of Verona," which came to light last evening in Cumnock Hall. Most of Miss Crawley's company have gone East. In fact, her whole troupe was said to have been absolutely wrecked by the San Francisco disaster. Nevertheless, she has gathered around her a not unattractive company here, and the production last night was meritorious even when considered as a whole.

Of Miss Crawley herself, as the gracious Julia, it is only necessary to reiterate the good words that have been said concerning her exquisite diction, her absolute stage ease and the multitudinous small refinements of her acting. She was sweetly gowning for the part.

William Osborne and Arthur Maude displayed dramatic and considerable talents as Proteus and Valentine, while Garret Holmes shone as Launce. Mrs. Barton was well cast as Silvia. Others in the bill were Alfred Wilkes, George Young, Mr. Thompson, Mr. Davies, Mr. Wilson, Miss Maude Turner.

As a play, the drama under consideration has but little interest or enthralling action for present-day audiences, unless presented on an elaborate scale, as a classic. It is a well appreciable work of literature, and from them, Miss Crawley and her assistants have abundant thanks.

Miss Van's Concert.

Ellen Beach Van, whose concert has been so long and eagerly awaited by her many friends in Los Angeles, will give tonight at the Masonic Opera-house. The box-office forecasts a large and fashionable audience.

Miss Van will be assisted by Señor Ricardo Ruiz, a brilliant Spanish violinist who lost a splendid library and all his other worldly goods in the northern holocaust. His talent and his violin he saved—thanks to a kind destiny.

Miss Van will sing the queen's air from "Les Huguenots," Charpentier's "Air de Louise," David's "Thou Brimstone Bird," some old familiar airs, short numbers by Schubert, Newton, Massenet, Delibes and others, and the great mad scene from "Lucia," in which she scored European triumph.

Her accompanists will be Mrs. T. Newman and Mary L. O'Donoghue. William Mead will play one or two suite obligatos.

HEARST'S "CANDIDACY."

Political ambition founded upon the advocacy of assassination grows modest. Nothing short of the Presidency would satisfy it six years ago. An independent—or bolting—candidate for the Governorship of New York is the limit of its hopes today.

Incitement to murder evidently declines in value as a political asset. This argues a certain ethical growth even among the followers of personal and journalistic degeneracy.

Evolution progresses in slime and back as well as in purity and brighter environment. The low intelligences which defy the moral pervert have progressed to a point where they balk at the murder of a leader.

Encouraging, to say the least of it. We may be sure, nevertheless, that the followers may begin to see a gleam of moral light in the leader's example. Total depravity is incapable of enlightenment.

If the gospel of assassination has been abandoned in favor of the gospel of spoliation it is not because the preacher has changed his convictions but because those convictions are not so popular as they used to be among the vicious, abandoned and depraved who constitute the preacher's following.

Selfish expediency alone and not a change of heart is the motive for substituting one crime for another as the foundation of a personal political ambition. Murder has become somewhat too radical a proposition. It is therefore, replaced by robbery.

It is a difference not of criminal inclination but of criminal selection. The offender is still the offender; he merely changes the object of his ambition. He awaits a more favorable moment to renew incitement to homicide.

The man who in 1861 openly and repeatedly urged the beauty and duty of murder, following which he urged the resident of the United States was slain, is neither better nor worse to-day than he was then. He is not better because there are depths from which humanity cannot climb. He is worse because there are abysses into which he will not even be able to descend. If he now advocates theft rather than the taking of human life it is not because he repents of incitement to murder, but because incitement to murder is inexpedient—and dangerous. The public temper would not tolerate the assassination of another President at the instigation of depraved journalism and perverted moral personality. The instinct of self-preservation is potent even in an individual which is absolutely incapable of ethical considerations.

Expediency, and the cowardice which dreads the consequence of crime while approving the crime itself, are the motives which impel the moral pervert—the degenerate—to permit his advocacy of murder and to attempt himself with inciting to large.

He has not changed his secret intentions, his general policies nor his personal encourage. His publications continue to rock of the shame and time of the whole world, dug up from the forgotten sloughs where the debris of humanity lie immersed. Incitement continues to be done by men who are able, if as unscrupulous as him, to make a virtue of whatever mental gifts they enjoy to the service of a vicious and malicious personal ambition. They are not, for inherited blood would stain in the imminent peril of the penitentiary or the madhouse, himself continues to afford an unending public exhibition of blatant, blinding egotism and self-glorification, that never has had a parallel in the life of any other criminal world.

Next to the criminal proclivities of man stands his colossal self-conceit. A dangerous megalomania, he holds moral sense and ordinary conviction alike.

The only thing which prevents him from being the most dangerous of public enemies is his lack of brains. Nature refused to bring forth a monster facile in executing crime as he is in conceiving it.

But if such a man abuses the good of murder to preach that of theft, he is kind and honest the less so fully against murder, for it is not the God but fear of the gallows prompts the abjuration, and the abjuration has taken the matter under and over the fear of God and the laws alike.

Hosiery Sale Today

Yesterday's papers told how it happens that we are selling three thousand pairs of women's

35c to \$1 stockings 25c at

a pair. Plain and fancy lises and Sea Island cottons. The whole annex is allotted to their sale this morning, assuring prompt service.

Bathing Suits

\$3.50 to \$25

\$3.50 is as little as you can safely pay for a woman's suit—if an attractive appearance is a consideration with you. At that price we've correctly cut and well made suits of black and blue mohair, prettily trimmed with white braid; low neck; short sleeves.

Dozens of different sorts at various prices between that and the luxuriously rich suits of black and blue taffeta silk, at \$15, \$20 and \$25.

Lady-like garments at very reasonable prices—and an unequalled assortment to choose from.

June Sale of Undermuslins.

Purchase Enough now to Last Through the Entire Summer, for it is Very Unlikely that Prices on Women's Underclothes will be as Low Before our Next Sale.

Lucky for us, lucky for you, that we made preparations for this annual June sale months ago, when we foresaw the rise of cotton—and increased cost of white goods. We ordered lavishly, then and there, so further advances haven't worried us, nor forced us to add anything to our usual prices, nor to give short measure in any of the garments. They've all been made in factories where the workers are well paid, and where sanitary conditions are all that they ought to be. The "Home Made" brand and garments bearing the Consumer's League label figure prominently. Every piece is new, snowy and perfect, there are no seconds nor job lots.

Get at the real goodness of this sale by proving values offered at the following prices.

LEVEES HOLD FLOODS BACK.

But the Fate of Calexico Still Hangs in Balance.

Working With Dynamite on Wild New River.

Officials of Southern Pacific Say Main Line Safe.

The fate of Calexico still hangs in the balance. On the one side the farmers of the vicinity and the residents of the town are working at the levees upon which the encroaching waters are steadily making their inroads, and into the sinister side of the scale is being poured the mighty torrent of the Colorado River as yet unchecked.

All day yesterday the local representatives of the heavy interests, railroad and agricultural, involved in the fertile valley which is threatened with a disastrous inundation, were anxiously awaiting news from the point of greatest immediate danger, the region round about Calexico.

The latest advice received in the afternoon at the general headquarters of the Southern Pacific were to the effect that although the water has risen slightly during the day, the dikes about the town still stand, and that the residents are unharmed in their vigilance and work upon portions of the embankment which show signs of weakness.

Engineer Rockwood of the California Development Company, left in haste yesterday noon for Calexico, where the very offices of the company, moved there from this city not many days ago, are threatened by the rising flood.

TAKING DRASTIC MEASURES. It is at this point that the engineering department of the California Development Company is working the most vigorously and taking the most drastic measures to combat the rising waters.

Hundreds of pounds of dynamite are being exploded in the channel of the river to deepen and widen the channel and allow it to more readily carry off the floods from the Colorado. This is what is causing the trouble at Calexico, according to Mr. Rockwood. The channel of New River is far inadequate to carry the volume of water pouring through it on the way from the Colorado River to the Salton River. New River is on a strike and is stopping over dreadfully.

"We are determined to use all our energy to the task of increasing the carrying capacity of New River," said Rockwood. "We have forces of men dredging and dynamiting in the effort to increase the carrying capacity of the channel."

The charges of dynamite exploded in the channel blast the bottom out of the river, and the rush of the water, which is going through like a mill race, sweeps everything along with it. There is nothing to be done but the opportunity of making any other disposition of the earth from the river. The force of the current attends to that.

"We are hopeful that our efforts, aided by a fall in the river, which we are expecting very soon now, will save Calexico from further trouble."

OFFICE IN CAMP CAR. Railway officials who returned yesterday from Calexico, say that the Southern Pacific agent at that point has set up his instruments and office in a camp car about a quarter of a mile from the town, where the station floor is now under thirty inches of water. Right across the international boundary, the station of Mexcala is likewise flooded, as is also much of the track beyond in Mexico.

This is the portion of its line which the Southern Pacific has had under construction prior to the "runaway" of the Colorado to make a loop about the sand hills from Imperial Junction to Yuma, passing in and out of Old Mexico. This may be made the main line of the road in order to avoid heavy grades and the drifting sand between Imperial Junction and Yuma. The rampage of the Colorado River, however, resulted in the temporary abandonment of this project, as the line both constructed and proposed is under water for miles in Mexico.

According to Southern Pacific officials, it is only at Calexico that the line is threatened at all at present. It is estimated that the main line about Salton, which has been forced to take to the base of the foothills, is out of danger for some months to come even should the river continue to pour unchecked into the great basin. The branch line about Imperial, however, threatened, they say, and trains are operated daily from Imperial Junction to the box car station, 1000 feet this side of the flooded depot at Calexico.

PERVERSE MISCONCEPTION. Tiley L. Ford's Explanation of Breach of Promise That Does Not Explain.

In reply to the demand of the Consolidation Commission for fulfillment of the promises made by the Legislative Committee and Gov. Pardee that amendments to the constitutional provisions governing the consolidation of counties and counties should be presented to the Legislature for consideration, Tiley L. Ford, chairman of the Legislative Committee wrote as follows:

It is the belief of every member of the committee that the speedy acquisition of sufficient water supply by Los Angeles is a matter for emergency legislation. The committee is of opinion, however, that there does not prevail a sufficient unanimity of local sentiment in favor of the consolidation of the county and municipal governments, as a means toward the end sought, to warrant the committee in recommending that plan of procedure. Indeed, from the numerous oral and written protests made to the committee by representatives of the several municipalities adjacent to Los Angeles, against any measure tending to merge their respective governments with that of Los Angeles city, it became manifest to the committee that there is well defined antagonism to general consolidation.

It is the sentiment of the committee that it cannot, in fairness, pass with its recommendations to the Governor a matter relative to which there is so much difference of feeling among those who are most directly concerned, nor does it seem justified in asking the Legislature to take action upon a subject that is apparently likely to precipitate serious and hostile discussion upon the floor of that body.

Furthermore, it now appears to the committee that all that Los Angeles city and county desire, namely, legislative provision enabling the immediate acquisition of a water supply by its municipalities and the territory intervening, can be more expeditiously and readily obtained by amendment of a statute now upon the books, and this is clearly and heartily recommended.

All of which is as pertinent to the question as the "equivocal answer" given by an Irish servant to a caller who asked if the mistress of the house was at home. "I said him," reported the servant, "that his grandmother a monkey."

Bucket-Shop Must Go

The Bucket-Shopper is the jackal-thief who sneaks along the trail of the larger beasts of prey—the Frenzied Financiers—picking up what they disdain to touch.

By letting his victims make a little money at the start, he lures them on to stake all their savings, to borrowing on their homes, even to stealing, and finally to their ruin.

Merrill A. Teague, who led a vigorous and successful fight last summer against a pack of these unclean creatures in Philadelphia, is telling the readers of Everybody's what a Bucket-Shop is, who the thieves are, where they are, and how they operate.

Teague's fact-series on Bucket-Shopping begins in Everybody's for June.

HEAVY TONNAGE WOULD COME.

BUT MEXICO FREIGHT AWAITS WAY TO HANDLE IT.

Smelter and Sugar Factory Among First Things Needed Here, Says Business Man Back from Lower Coast—San Pedro Labor Unions Drive Shipping Away.

"Before Los Angeles, through its port at San Pedro, will reap the full benefit of the enormous tonnage now waiting upon the west coast of Mexico, the proper arrangements for taking care of it must be made," said W. H. Doty, general manager of the Union Fertilizer Company, who has returned from an extensive trip through Lower California and the west coast of Mexico. He was there looking over trade conditions.

"There is practically no limit to the tonnage now lying waiting for ships to bring it to this country. But the one condition necessary for us, when we see we cannot care for it. The principal tonnage will be ore. This cannot be handled at San Pedro, as there is no smelter near to care for it. There are also thousands of tons of raw sugar or pincho which should come to Los Angeles, but which would prove a white elephant as it could not be cared for."

Mr. Doty says that a smelter and a sugar factory should be built here without delay, and that almost immediately a great influx of freight would develop from Mexico.

He says that steamship companies would like to run lines of boats between the lower republic and the United States and have immense possibilities in the way of freight to Mexico from the United States, but the long return voyage with but a nominal tonnage makes this unprofitable. This empty return voyage, he says, is caused by the lack of facilities to handle the freight here after it arrives.

In a recapitulation of the tonnage possibilities in Mexico, which should logically come to the port of San Pedro, Mr. Doty says that his own company, which has now 1800 tons of guano ready for shipment here, could furnish between 200 and 400 tons every trip for a steamship.

He estimates that 1000 tons of ore would be shipped every month if there were facilities here to care for it; and this would be but the beginning of a much greater tonnage. There would be 200 tons of raw sugar for a steamer every trip, and dye woods and tanning bark to double this tonnage. At present the bulk of the dye woods go to France by way of Cape Horn, while a great part of the tanning bark goes to San Francisco.

Mr. Doty takes occasion to show that the labor unions at San Pedro are, by unjust actions, driving away shipping instead of trying to bring it hither.

It costs more, he says, to unload a ship at San Pedro in labor than at San Diego or other ports where the away of the unions is merely nominal. The wages paid the men are the same, but the rules with which the totemites at San Pedro surround themselves makes it often necessary for a captain to keep his ship in port over night, and he has completed the unloading of his cargo but an hour or two after the time the unionites quit. One day's time is sometimes a vital point in causing the owner of a steamship to lose a heavy cargo of freight at some other port.

The arrival of the first of the Mexican line of steamships from the lower republic, in the interests of which Señor Gonzalez was in Los Angeles a few weeks ago, is delayed owing to the difficulty in handling some of the freight to be brought here. It was reported yesterday that the Robert Dollar Steamship Company, which has steamers plying between the coast and the Orient, plans to make San Pedro its permanent American port of entry. It is said that the steamship Beale, under the command of which left Moji, Japan, May 22, is expected to arrive here June 15. The Beale is a 10,000-ton steamer, and will return to this country and land at San Pedro.

It is said that the Crescent Wharf and Steamship Company is back of the new venture and expects to make the line a permanent one between San Pedro and the Orient.

DENTAL COMMENCEMENT. Twenty-seven graduates of the Dental College, University of Southern California, were given diplomas last night at Simpson Auditorium by Dr. Boyard, president of the university. There was a musical programme and an address by Dr. Baker P. Lee. The largest crowd that has ever attended the commencement exercises of the college enjoyed the excellent programme. Miss Beale Chapin gave an instrumental selection, and Edan Baldwin sang. Dr. L. E. Ford, dean of the college, made a few remarks. The names of the graduates were printed in The Times Wednesday.

BEDECK FOR DEDICATION.

Workmen Hurry to Finish Scottish Rite Home.

New Cathedral Most Commodious and Complete.

Building Contains Theater and Banquet Halls.

Carpet layers are hurrying around the floors of the new Scottish Rite Cathedral, and tapestry hangers are swarming over ladders, and there is a brigade of men with brooms making things clean. They have two days to put the magnificent building in gala

New Los Angeles Scottish Rite Cathedral, most complete building of its kind in the world, to be dedicated tomorrow evening. Above is shown the fine Italian marble entrance; below the handsome auditorium.

and they are going to do it. Tomorrow evening the dedicatory ceremonies will be held, and before tonight everything must be in shape. The new cathedral is the most complete and commodious building in the world, devoted exclusively to the purposes of the Scottish Rite of Freemasonry. A few years ago the Scottish Rite was few in numbers here and in debt to boot, but now it has a large membership, with money in the treasury, and a building that has cost \$100,000, located on the valuable property on which it stands.

In every way the new home is a wonderful building. The whole color scheme of the interior is green and cream, with mahogany finish. It is the most perfect mahogany too. Outside the building is cream colored brick, with an entrance of imported Italian marble, like onyx, but more beautiful than great brass doors. A visitor has to have a guide to find his way around the big edifice. There are rooms here that one finds only in best theaters; there are in another the library, smoking and billiard rooms of a New York club; down in basement is a banquet hall and kitchen; up near the roof are lodges; and down near the door are the business offices of the order. Everything is there.

near the entrance on one side are coat rooms for men, with large lockers. On the other are coat rooms for ladies, with forms to put cloaks on; up near the roof are lodges; and down near the door are the business offices of the order. Everything is there.

When there is a great cream colored banquet hall, which has covered ceiling, where the lights are hidden from eye in channels around the upper gallery, throwing a warm glow over room without any glare. Opening it are kitchens, capable of caring for 1200 people at once. Regular ranks of stoves with smoke hoods line one side, and on the other are banks of chairs—not the old-fashioned banquet tables—to keep the dishes hot over the banquet hall is the auditorium, capable of seating nearly 2000. It is a marvel, completely appointed and furnished with the finest material in the West. Alongside the rows of handles that control lights is a set of six dimmers with six switches, making it possible to shade the lights from nothing to the fiercest glare. On one wing an airy row of ninety-four weights in slides show how many drops are up in the flies.

The bellows that pump the air are way behind the stage, but it was found that on account of the distance they were away, the pressure was not steady. NO NOOSE FOR MCCLURE.
Death Sentence of Old Prospector Who Killed Two Men Is Commuted to Life Imprisonment.

Old John McClure, the crippled and tottering prospector, who shot and killed two stablemen, Zedickoff and O'Shea, in Los Angeles, in December, 1904, will not be hanged for his crime. Gov. Stanford yesterday commuted the sentence of death to one of life imprisonment. McClure's life was spared principally through the recommendations of Chief Justice Beatty and Justice Shaw of the State Supreme Court, while there were filed with the governor the affidavits of persons in Los Angeles and Arizona to the effect that McClure, prior to the murder, was a peaceable, kindly old man.

The double killing was the result of a quarrel over the possession of a halter which McClure claimed was not included in the sale of a horse and wagon to Zedickoff. McClure visited the stable several times in quest of the halter and each time was jeered at and taunted by the two men. Finally he could stand the goading no longer and shot to kill. In his letter urging commutation, Justice Shaw stated that the crime of murder so committed is not of the kind that calls for infliction of the death penalty.

WHISTLING FOR A GOOD BREEZE.

YACHTSMEN PREPARE TO RACE FOR CHAMPIONSHIP.

South Coast Yacht Club's White Winged Craft Will Compete for Humer and Cups on Sunday—Details of the Programme—Cruises to Avalon and Portuguese Bend.

On Sunday the second club championship races will be sailed under the flag of Blake Gregory, chairman.

Yachts of class A will run from the club to the Point Pinos, a distance of about 10 miles, and will beat back to complete the course. Yachts of class B and C will travel in the same direction to a mark placed four miles from the starting point, and their racing trip will be about nine miles.

The chairman will lay the starting line in such a position as to afford a straight leeward course clear of the Point Pinos breakwater to the leeward, and to do this he will have two whistles placed on the line indicated by the whistling buoy and the Point Pinos lighthouse, and sufficiently far off the starting line yachts will leave the outer mark to starboard as they enter the race, and in their leeward classes they will also leave the mark of the finish line on the leeward.

Races will be started at 1 o'clock on Sunday. In class A the new Monsoon will be sailed by J. P. Fish and meet the new Mischief II, to be sailed by Walter Polson, and the Mischief I, to be sailed by Fritz Whit.

C. H. Wedgewood's new Skidoo is a hoped-for starter, and the new owned by Mr. Bradley, who is one of the class B competitors.

Concerning the much-talked-of meet of Mischief I and the Monsoon, it was suggested that the de- of Gardner may tell a new story of the gets dead before the wind of traveling in which these have not yet met; and if the come fresh it is considered that Mischief may hold a place her to be still a dangerous sailor. Skidoo's pace last Sunday was suggested that this point is discovered in her full values.

TENNIS CHAMPIONS GO DOWN TO UNEXPECTED DEFEAT.

Brady and Wayne Wrest Victory from Sinsbaugh and Warland. Henry no Match for Warland in Singles—Result Sends Winners of Doubles into the Finals.

Only two matches were played yesterday in the second day of the open tournament of the Southern California Lawn Tennis Club, but there was enough excitement in them to satisfy a critical audience.

The first match was between Cecil Henry and W. S. Warland, in the semi-finals, and resulted in a victory for Warland, 6-2, 6-1. There were times when the younger man threatened to draw the score close, but Warland's form shone luminously, and his long experience counted heavily against the aggressiveness of his opponent. Henry was a little off his game, while Warland was at his best, playing his fore and back-hand drives with great accuracy. This victory put Warland in the finals, where he will play the winner of the Brady-Bell match Saturday.

The surprise of the tournament came with the match in the doubles between Brady and Wayne on one side and Sinsbaugh and Warland on the other. The latter team was the favorite, owing to their great performance at the Ojai tournament, when they took the championship from Griffin and Gardner.

Sinsbaugh and Warland started off in winning form, and had everything their own way in the first set. In the second set Brady and Wayne began to lob instead of trying to kill everything, and these tactics won the match. The three sets were won as follows: First set, Sinsbaugh and Warland, 6-4; second, Brady and Wayne, 7-5; third, Brady and Wayne, 6-1.

In the match between Warland and Henry, play assumed sensational aspects at times, both men standing almost against the net, shooting volley after volley at each other, calling for marvelous alertness and great wrist work. Today Bell and Brady will play their match in the semi-finals of the singles, and Brady and Wayne play Bundy and Gorham in the semi-finals of the men's doubles.

REMEMBER

July 1st every unsold lot in Wilshire Harvard Heights will be advanced 10 per cent in price. A little investigation will show you the justice of this move. Since our old prices were established all property in the section has more than doubled in value. Transportation was at that time the only doubtful feature of this beautiful close in section, but now there are three or four car lines assured. Our Grading Contract which calls for finer and more extensive improvements than we ever promised, has been let and work begun. We are directly in the best line of growth of the fastest growing city in the world. All in the city, with the many advantages that brings, this tract is no further south of the business center than 7th St.—no further west than Normandie Ave.

REMEMBER

This is your opportunity—Don't wait till after the raise.

Go out TODAY and see for yourselves. There's big money in one of these lots or a most desirable location for your permanent home. Branch office 7th and Hoover or phone in for auto to call.

GRAIN O' SALT NEEDED HERE.

Ought to Be Put on Tail of This Fly-By-Night.

All Imperial Awed by Monster That Soars in Air.

Makes Queer Clicking Noise and Carries a Light.

Volunteers are wanted to put salt on the tail of a strange bird or beast or monster, which can be heard flying mysteriously in the night, but never can be seen.

Its favorite locality seems to be in the Imperial Valley. A man named Dagnall, just arrived in Los Angeles from Brawley, brings the tidings of its midnight meanderings.

As a man of good repute, he vouches for the creature's strange performance. He says it is the sensation and talk of the valley.

THEY WANT TO DO A THING TO THAT AIR SHIP THAT PASSES IN THE NIGHT, IF IT DOESN'T COME DOWN TO EXPLAIN.

What strange monster flies over Imperial Valley? Cartoonist Herriman presents various scientific theories of his own, designed to solve the alarming mystery.

THE WHOLE VALLEY. Not he alone, but dozens of others have heard it; some have seen it. For a mystery, it has the yearly sea serpent in the A. B. C. class.

Dagnall says the general idea is that the thing is some sort of flying machine. There are numerous theories as to how it comes to be in the desert; and as to why it flies only in the dark of the night.

Mr. Dagnall's place is about two miles outside the town of Brawley. He says he first became aware of "The Thing" about two months ago. It was at night, in the dark of the moon.

Through the stillness of the desert night, he heard a curious clicking-clicking noise, like the workings of a small motor. He says it was like a gasoline engine, only not so loud. Presently it ceased, and he heard no more of it for some time, when the sound came again; this time it sounded as if the thing were passing overhead, but retracing its steps, as it were.

COMES AGAIN WITH LIGHT.

On a night some time after that, The Thing came again. This time Dagnall not only heard the clicking-clicking, but he saw a queer light waving and bobbing as if it were suspended from some soaring, flying thing. In a flash it had bobbed up and disappeared, swallowed up in the soft, thick black of the night.

The Thing came and went like that again and again. At last, one night, the moon was shining in patches through the angry cloud scuds, his wife actually saw it. She came into the house, frightened and pale.

It looked like a great bird, she said. She was too startled to go into details.

This might have been imagination on the part of the Dagnall family had not The Thing made itself evident to other people.

A man named Applegate saw it one night when the blackness was not so very thick. He said he could make out vague, huge form sailing lightly through the air. He, too, could see the bobbing light, which waved and then vanished.

Shortly after his experience a herder from one of the ranches came rushing into the ranch house, panic-stricken and nearly frightened to death. He managed to gasp out that his pigs had taken fright at a huge thing that flew through the air and had all stamped in forty-five different directions.

JUST COULDN'T SHOOT IT.

One night Dagnall determined not to be haunted by The Thing any longer, got out his long 45-70 Winchester and laid in wait for the critter. Long wait; then he heard the familiar clicking-click. Then the light twinkled. He drew a careful bead; was about to pull the trigger and shoot a hole through the thing, when a thought struck him—

What if this should be a real airship and the man at the helm should be loaded with dynamite bombs which he would lightly toss overhead and demolish the Dagnall family?

Upon due consultation he found that the whole valley very much approved the action; there is no use taking chances with a Thing.

Since then the problem has been deeply discussed. Any number of theories have been advanced. It is generally agreed that it must be a flying machine. How does it come to be way over in the Imperial Valley is enough to correct the impression.

Mr. Eaton has ordered a Tourist automobile for use in the valley, following the lead of Editor Mulholland, of Independence. The editor had a ride in Engineer Mulholland's auto from Keeler to Mojave, when the Board of Public Works was on its exploring trip a few weeks ago, and he found the machine so great an improvement over the stage coach, that he lost no time in procuring a gas wagon for himself.

Mr. Mulholland selected a Tourist, and by the simple expedient of widening the tread to wagon gauge, he overcame all the difficulty of getting through the sand. The worst sand wash on the road from Red Rock to Bishop is no obstacle to an auto built to track with the wagons in use in the country.

DEATH COMES SUDDENLY.

Dr. Edwin R. Phoenix Falls a Corpse at Feet of His Wife at Hotel Trenton.

Dr. Edwin R. Phoenix of the firm of Dr. Phoenix & Phoenix, eye specialists, dropped dead in his room at the Hotel Trenton, shortly before 8 o'clock last night. It is believed death came as a result of heart disease, but the details of the case today.

About six months ago Dr. Phoenix came to this city from Detroit, and with his brother has worked up a considerable practice. His sudden falling off came while he was speaking with his wife a few moments after the two had reached their apartments in the dining-room. Mrs. Phoenix is prostrated from the severe shock.

Dr. Phoenix was aged 41 years. The body is at Breese Bros. morgue and arrangements for the funeral have not yet been made.

SOLOMON AFTER ATTELL.

Featherweight Title and Financial Inducements Appeal Strongly to Local Mitt Artist.

Abe Attell almost lost his breath yesterday when Kid Solomon offered to fight him for a side bet of \$1000, the weight to be 125 pounds at 3 o'clock on the day of the contest.

At first Attell took it as a joke, but when the fans began speculating on the outcome of such a battle the affair took on a serious aspect and Abe began to figure.

The local appetite has turned to local men, and there are many who would bet a little wad on Solomon's chance with the featherweight champion.

The talk of the Solomon-Attell match arose over the apparent reluctance of Jimmy Walsh to take on Attell's game. The Pacific Athletic Club is figuring on filling its June card just as though nothing had happened, and the popular clamor that Solomon be given a chance has appealed strongly to the promoters.

If this match is consummated this week the weight agreement will be settled at 122 pounds, a figure which both men would have no trouble in reaching.

Solomon has this much to recommend him; he is aggressive, quick and a hard hitter, and above all is game. His fights recently showed him to be a worthy opponent, and Attell would not have the easy time with him that he had with Herman.

RELIGIOUS.

MISSION WORK AMONG LOWLY.

Servants in Foreign Fields Address Methodists.

Local District Association in Annual Session.

Old-Time Angeleno Tells of Labors in Mexico.

Representatives from the foreign missionary societies of all the Methodist churches in the city gathered at Vincent Church yesterday for the twenty-ninth annual session of the Los Angeles District Association. The meetings will continue all day tomorrow, and a good deal of talent, local and foreign, has been pressed into service.

Last evening, Miss Winifred Spaulding, a missionary from Manila, spoke to a large audience. Miss Spaulding was a descomen here for some time previous to going to the Philippines, where she spent two years.

Eighteen districts were represented yesterday, and papers were read at the morning session by Mrs. J. W. Stringfield, of the First Methodist Church, and by Mrs. J. A. Jemel Bar, of St. James Church, who told of the work of Isabella Thoburn, founder of the Woman's College in Lucknow, India.

Mrs. S. S. Pilkington, of the Boyle Heights Church, led a conversation about China, which brought on forcibly the political, religious and educational conditions existing there.

Rev. F. S. Borton, who delivered the Memorial Day oration at Evergreen Cemetery, gave a thrilling address concerning his fifteen years of missionary work in Mexico. Mr. Borton told of his early residence in Los Angeles more than thirty years ago, when he was a Sunday-school boy in the little brick Methodist Church on Broadway, and afterward in the old Port Street Church, where Jacoby's store now stands.

WORK AMONG MEXICANS.

He left Mexico, with his wife, a few weeks ago for his second vacation in fifteen years. His work in Mexico lies, not among the Spanish, but with the Mexicans.

"We have to preach the gospel of soap, water and a clean towel," he said. The Woman's Foreign Missionary Society takes these Indian girls from their wretched homes and places them in schools, where they are trained for future usefulness among their own womankind.

Lunch was served by the ladies of Vincent Church at noon, and the first afternoon address was by Dr. H. B. Schwartz, who, with his family, is turlough from his work in Japan. He prefaced his remarks by reading the 10th Psalm, which was read in 1832 on Commodore Perry's boat at the first Christian service held in Japan.

TELLS OF THE LOO CHOCH.

Dr. Schwartz has been recently appointed by Bishop Harris to the Loo Cho Islands, off the coast of Japan, with 600,000 people, much like the Chinese in characteristics, although under the government of Japan. Dr. Schwartz declares that the men there are a good-for-nothing set, but the women, if free, would make a Paradise of the islands. To prove this statement, he said the richest people on the islands are widows.

The Methodist church began work there ten years ago. Of the 300,000 women on the islands, not more than 300 can read and write. As girls are not allowed to go out in the daytime, the schools must be in the evening. All the work is done by the women of the lower classes, who even take pay to market on their heads. There are no hotels of any kind, but a room in a public office in the villages is set apart for teachers. Dr. Schwartz and his family will go out to this new, strange field, and will be in a settlement, 200 miles from its nearest neighbor.

This morning at 11 o'clock, Rev. William B. Blackstone, off the coast of Japan, and in the afternoon there will be reports from committees and addresses from Mrs. Walker Fish, Mrs. Charlotte O'Neal and Mrs. Wills. The convention will adjourn this afternoon at 4 o'clock. Mrs. William Sterling, president of the Los Angeles District Association, presides at all the sessions.

MISS WINIFRED SPAULDING, missionary from Manila.

HURT, SAYS WONG FONG.

Influential Chinese Family, Refused Service on Broadway, Threatens Damage Suit.

Having refused to serve a Chinaman, who happens to be a manager of a Broadway restaurant, has put itself in danger of a damage suit. Wong Fong, deeply hurt, is on the warpath.

During Fiesta, with his wife and sister, he went into a restaurant, South Broadway, and took seats at the tables. He waited and waited and yet waited more. Everybody else at the tables was served, but not the Chinese. Finally Wong Fong, humiliated and hurt, walked out. He understood the cause of the delay.

It has caused great indignation in Chinatown. Wong Fong is one of the leading men there—a progressive citizen. He dresses in American clothes and his pretty little wife does likewise.

"It hurts me here," said Wong Fong, touching his breast. "I was so ashamed. I shall never get over it. I never insult anybody, and I can't see why I should have been so humiliated. We were all well dressed and conducted ourselves properly."

The sequel of the story, however, goes in the chagrin of the Broadway restaurant keeper, for Wong Fong took himself and his wife and sister to Levy's, where they were received with every attention, and where Wong Fong loosened up his always generous purse strings to the extent of a \$10 dinner.

It seems to have been an odd place to draw the color line. These well-to-do Chinese like Wong Fong are always well behaved, civil and are good spenders. Many of the leading men of the city attend the banquets given by the Chinese; on more than one occasion the Chamber of Commerce has sent its special representatives to be present.

Only a \$10-per-week hash sinner would have been so hasty.

CHINESE PIE FOUNDRY.

Unique Institution Opened in Chinatown, Knives and Forks Displayed in the Chop Stick.

The first Chinese pie foundry and hash counter on earth has been opened at Apalachee street, in Chinatown. It is an evidence of the awakening of China.

To make it an up-to-date and sufficiently reckless-looking, the Mongolian proprietor has installed American knives and forks in place of the chopsticks. His patrons use them with a gingerly, worried way, as though they didn't know about these new do-fundamental pies.

It is usual for them to grab a big spoon in one hand and a fork in the other, respectfully leaving the knife to its own fate. All over the sidewalk fellow Chinese look on with wonder, while more daring and reckless men go up against American collections. In the windows are blatantly displayed pies.

It's a cinch after a wrestle with one of these, each one of these Chinamen. In a chastened mood, sneaks around the chop house and squares it with his stomach on chop suzy.

COTTONWOOD CREEK'S TEAR.

Water Rushing in Owens Valley, Reports Fred Eaton—An Auto for Desert Roads.

Former Mayor Fred Eaton came down from Owens Valley yesterday to consult the Board of Public Works and the City Attorney on business connected with the city's acquisition of land and water rights in the valley. Mr. Eaton reports that the road from Olanchito to Lone Pine along the west side of Owens Lake, is impassable because of the torrential discharge of Cottonwood Creek. At least ten, and inches of water are flowing across the road, and the volume and velocity of the stream are so great that a heavy wagon would be swept if caught in the current.

Cottonwood Creek is one of the streams of the eastern Sierra watershed owned by the City of Los Angeles. It is not a tributary of Owens River, but discharges, when in flood, directly into Owens Lake. In seasons of low run-off, the creek waters sink into a vast delta cone of granite detritus between the mouth of the cañon and the lake. The creek is a contradiction of the statement, made by a speaker at the Pasadena consolidation meeting, that the eastern watershed of the Sierra is only five miles wide. It is more than twenty miles from the mouth of the cañon to the headwaters of the creek in the Sierra. The eastern slope of the Sierra looks very narrow and steep, viewed from the valley, but a journey to the sources of any of the large creeks flowing into Owens Valley is enough to correct the impression.

Mr. Eaton has ordered a Tourist automobile for use in the valley, following the lead of Editor Mulholland, of Independence. The editor had a ride in Engineer Mulholland's auto from Keeler to Mojave, when the Board of Public Works was on its exploring trip a few weeks ago, and he found the machine so great an improvement over the stage coach, that he lost no time in procuring a gas wagon for himself.

Their June Wedding Comes in May.

Dan Cupid and his two latest converts, Mr. and Mrs. D. A. Dempster, succeeded in finally forming the well-laid plans of their younger relatives and friends to give them a magnificent but somewhat bolsterous "send off" subsequent to their marriage.

And now there is a pretty little cottage on Miranda street all bedecked with heart-shaped cards bearing telling legends, that waves its newly-acquired decorations in the idle winds and longs for the presence of the young couple to see the rear of the train disappearing.

Hiding their chagrin and likewise numerous mysterious packages as best they could, the young people abandoned their well-meant attempts to give the couple a send-off.

Being before hand, however, they had decorated the little cottage on Miranda street with paper hearts and streamers bearing legends along the following lines: "We are on our honeymoon." "Please do not talk about a whither in passing." "Doves Nest." "Lovers' Retreat," etc.

The conspirators say they will be prepared for the obnoxious young couple when they return, and will make up for the delay.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

The health officer says "tainted meat" is sold in Los Angeles, but that it has not undergone government inspection. He favors a public abattoir. C. Wesley Roberts, representing a San Francisco corporation, is prepared to make a proposal to the Council for the purchase or lease of the City Hall site.

Mrs. Marie Slick gave her baby at its birth to its grandmother. Now, after two years, she wants the child back, but discovered yesterday that the husband determined where the family home shall be, and as baby is with the father and his parents, the mother's claim has been set aside.

James Cain so manipulated his real estate that from owning a \$200 house on Forty-seventh street he has now only five lots in Chicago, the value of which is uncertain, to show for it; and has also to answer a charge of obtaining money under false pretenses.

Young Perdue swapped sweethearts with a friend recently; the husband of his inamorata learned of Perdue's intentions and threatened his life, and the young man became mentally unbalanced through fear of consequences. Yesterday he was committed to the asylum.

AT THE CITY HALL.

BUTCHERS BUY "TAINTED MEAT."

TAKE DISEASED COWS FROM DAIRY HERDS.

Health Officer Says Government Inspection Is a Godsend—Deplores Effect of Publication of "The Jungle"—Greatest Need Is a Public Abattoir, He Declares.

"Tainted meat" is sold in Los Angeles, but it doesn't bear the stamp of government inspection.

Health Officer Powers hasn't read "The Jungle." He hasn't the least desire to read it. He says the title is sufficient to show that it treats of something entirely foreign to Los Angeles.

For ten years Dr. Powers has been engaged in a personally-conducted campaign to secure a municipal abattoir with government inspection. Just as he is getting in condition to report progress a much-rake man comes along and makes people believe that government inspection is a few degrees worse than an inspection at all.

"It would be just as sensible to talk about discontinuing the postal service because postmen are thieves," says the Health Officer. "The 'Jungle' is a Godsend to this county. I wish that all the most offered for sale here might be identified by the brand or tag of government inspection."

Dr. Powers says that government inspection has been a Godsend to this county. I wish that all the most offered for sale here might be identified by the brand or tag of government inspection.

Dr. Powers views the "Jungle" man in about the same light that the last century regarded Ingersoll. He says that the man making the attack on government inspection is a "Jungle" man, and that he is not likely to break something down without offering anything better in its place.

"Tainted meat" is sold in Los Angeles and has been for years, says the Health Officer. "I have done my best to break up the practice, but have been able to make little progress because the department has no way to inspect all animals before they are killed."

The primary danger in the slaughter of diseased animals, Slick cows are bought from dairymen by butchers and the meat is offered for sale. He has tried to break up the practice and has succeeded in driving some butchers out of business, but many, he fears, remain.

"Dairymen have told me that their herds are watched by certain butchers. When a cow is sick and is not likely to recover these vandals offer the dairymen a small sum for it."

"We have tried to expose some of these cases where purchases are made. We know a cow in a herd is sick. Suddenly she disappears and we get no more trace of her."

"Inspectors in the department have found diseased meat offered for sale. Of course that was confiscated. But the chances are about fifty to one against detection after the animal is once slaughtered."

"It is not difficult to detect disease when the animal is alive; but to discover it in a piece of meat in a butcher shop is a different matter."

"I have always favored a public slaughter-house and an ordinance prohibiting the sale inside the city of meat bearing no stamp of government or municipal inspection."

Dr. Powers submitted with his approval the following paragraph from the health ordinance of Cleveland, O.: "No person shall bring into the city for sale or shall offer for sale or sell any carcasses or meat products which cannot be marked, branded, labeled or transferred as being identified as being daily inspected by the health officer of the Board of Health of the United States government."

The enforcement of this ordinance would mean that all meat offered for sale had been inspected while alive by a competent inspector.

Los Angeles has no meat inspectors. They divide their time between visiting the slaughter-houses in the vicinity of the city and in inspecting the meat offered for sale in the local markets.

If a government stamp were required on all meat there would be no further reason for inspection by the local department of live stock. The inspectors could devote their entire time in looking after the treatment of the meat receives after it leaves the slaughter-houses.

But all this is playing right into the hands of the big packers, so the Jungle man says. It means government inspection for all; and it is that inspection that "The Jungle" derides.

Eastern municipalities often point to Los Angeles as an awful example of a city without an ordinance requiring the inspection of all meat before the killing. We have no protection except that afforded by the inspectors who detect an occasional piece of bad meat after it is dressed and on the hook in a butcher shop.

An ordinance requiring an inspection tag or a brand might make conditions better, though they would still remain far from ideal on account of the clever chemical solutions for preserving the color and odor of fresh meat when the product is in an advanced stage of decomposition.

WANTS CITY HALL.

SUGGESTS A LEASE.

C. Wesley Roberts, a local real estate man, would like to purchase or lease the City Hall site on South Broadway. He went to the municipal building yesterday for the purpose of submitting a proposition to the Board of Public Works.

Wandering into the wrong room, he attempted to drive a bargain with the newspaper man.

Mr. Roberts represents a large San Francisco corporation which would like to locate here. He leased the Spring-street school site three years ago and transformed it into Mercantile Place. He also leased the site at Third and Main streets now occupied by the Citizens' Bank building.

If Mr. Roberts succeeds in making satisfactory arrangements with the municipality the City Hall site will be occupied by a reinforced concrete business block, probably ten stories in height.

He prefers to purchase the land, but might be content with a ten-year lease.

"I believe the property on Broadway is too valuable to be used for the purpose to which it is now put," said Mr. Roberts. "The firm which I represent requires a prominent location such as the City Hall site would furnish."

END IN SIGHT.

SATURDAY LAST HOLIDAY.

The Governor has notified the Mayor that Saturday will be the last of the legal holidays, unless some new contingency arises.

Monday the brake will be removed from the wheels of the municipal machine and public business will be resumed at the City Hall.

During the last six weeks no legislative acts have been performed and no municipal documents have been signed. The result has been that no new public work has been started. Ordinances for the improvement of more than a hundred streets are ready for publication, as soon as the holidays are over.

AT THE COURTHOUSE.

BABY SPOILS HER CAREER!

MRS. SICK WILLING TO GIVE AWAY HER INFANT.

Grandparents Took It While the Mother Slept for a Theatrical Engagement, but Now That She Wants Her Baby Back Again She Finds the Way Is Closed.

August Slick is a 2-year-old baby who has been growing fat and sunny in Los Angeles, since a month after his birth in Sacramento. Now an attempt is being made by his mother to take it away from his grandparents.

Yesterday the parents and grandparents were before Judge Wilbur on habeas corpus proceedings, and in the first round of the legal battle, the grandparents won out.

The mother of the baby married Slick, and the baby was born in Sacramento. Grandmother Slick went north and attended the little stranger and the mother, and for a month kept the household together. Young Slick was a musician and his wife had an idea that if she could only go upon the stage she would take the world by storm.

But her husband was a musician and she told her husband that if Grandma Slick didn't take it she would give it away to the first person that wanted it.

Grandma said that she would take the little one and bring it up as her own. She is the sister of the late Turn-Verein Germania on Figueroa street. After that everything went well for a time and baby prospered under the sunny shade of the southern country, and while the mother attempted to break into the theatrical business in San Francisco, her husband remained steadily at work in Sacramento. Then along came the earthquake and fire.

The would-be actress wrote to her husband that he come to Los Angeles and live with his parents, working as easily obtained here as in Sacramento. Young Slick received his position in an orchestra and prepared to come south. But then his wife refused to come, and the son came alone to the home of his parents at No. 144 Figueroa street, where he has been receiving acquaintance with his infant son.

Recently Mrs. Marie Slick blew into the city and demanded her baby. She had changed her mind regarding giving the little one away and wanted it back. But her mother-in-law had heard that her son's wife intended to get the child and go with it to Arizona, where she would sue for a divorce. The old lady refused to surrender possession of the child, remembering that possession is nine points of the law, and the father of little August sided with his mother against his wife.

Yesterday all these facts were developed in Judge Wilbur's court. The grandparents had failed to legally adopt the child in the first instance, but as matters turned out, the law was not allowed to take her infant from its good home. The court held that the father established a home, had his child with him, and unless something could be alleged against his being a competent guardian, little August would be left undisturbed.

Judge Wilbur told the young wife that she would have to threaten out her difficulties in the divorce court. If she so pleased, but that the light of the testimony, the grandparents would retain the baby.

CLAIMS SPIKE ARREST.

Cain Lost by Wrapping.

James Cain was arrested yesterday by Constable De La Monte at the instance of Mrs. Elizabeth Water, on the charge of having obtained \$100 by false pretenses. The young daughter of the accused rascal said the city trying to raise the required \$500 bail, but did not meet with much success. Inasmuch as certain facts developed, inasmuch as the alleged offense was a fraud, the accused was released on his own recognizance.

Mrs. Water charged Cain with having obtained a loan from her husband upon representing that the piano in his home was his own, and giving it as collateral security for the \$100. As the instrument had been bought on the installment plan, and was not fully paid for, the security was no good.

But the defendant tells a different story, and denies absolutely that he ever gave any mortgage upon his piano, or even borrowed \$100 from Mr. Waters. He contends that the sum of

\$100 was given to him by Waters to pay certain bills for work done on a house on Forty-seventh street, and the receipts for the payments made, he says, were in his possession and will produce at the trial. But the charge leading up to his arrest Cain claims to be the result of ill feeling arising out of real estate transactions between Waters and himself, in which he has lost almost all he possessed.

In the first instance, he owned the house on Forty-seventh street, now occupied by Waters, and swapped it off for a ten-acre ranch near Arroyo. The house was worth about \$2500, and had a mortgage upon it, and so had the ranch. After the deal, Cain says that he found the land was so poor that the ranch would not sell for more than \$1500 at the outside. He tried to sell it and failed.

When he swapped again for five lots in Chicago, said to be worth from \$500 to \$1000. And that is all he can show for the Forty-seventh street house he once owned. Furthermore, he discovered, after he had swapped off the ranch for the Chicago lots, that it was a dummy, so that Waters has the city house, his old ranch back again, and is out five Chicago lots of problematical value.

When Cain found out whom he had been actually dealing with, he didn't give up possession of the ranch, but sooner than he had to, acting on the advice of his attorney. Finally, he did give up possession for \$10, but says that he gambled at El Estero with Waters and his wife, and the present arrangement was made to even things up.

However, Cain says that these and other facts will come out, and in the meantime he is not going to lose any sleep over the \$100 referred to, and has the receipts for the bills which Waters asked him to pay.

CRAZY FROM FEAR.

LOVERS SWAP SWEETHEARTS.

J. M. Perdue, a young employe of Christopher's Spring street establishment, was yesterday committed to the State Hospital at Patton by Judge James, but the commitment was held up for one week to permit of the father of the young man arriving from Georgia when he will take his son back East.

A party of eight persons went to the Eddlerock several weeks ago to have a late dinner. Young Perdue was escorting a young woman and every thing was pleasant at the outset. But during the dinner Perdue and one of his friends were each struck with the charms of the other's companion. By a strange coincidence exactly the same thing had occurred to the two girls.

Under the circumstances, there was only one thing to do, swap sweethearts. This was done, and Mrs. Garbail falling to the lot of Perdue. From that evening dated a close friendship between the woman and the young Southerner, until the liaison, in which he had involved himself reached the ears of Mrs. Garbail's husband, and the time he whipped his wife for the same.

He also breathed threats of slaughter against Perdue, and the latter brooded much over the matter that he became demented. He did all kinds of odd things about the store, until finally taken into custody.

It was thought that with rest, the young man will recover his mental balance.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

DEMANDS DAMAGES. S. C. Shepherd and his wife, Louise Shepard, have begun suit against the Los Angeles Railway Company to recover \$3750 as damages and for monetary expenses. On May 15 Mrs. Shepard took a Maple-avenue car to go to Twenty-fifth street, but was carried to Twenty-fifth street. While in the act of alighting she claims the car started suddenly and she was thrown to the ground, and her left leg fractured.

Rieslings and Clarets

The El Camino Real Brand is Best

While Southern California produces excellent sweet wines, the finest Riesling and Clarets come from the North. That is where we go for wines of this variety—to Napa and Sonoma Counties—where they are to be had at their best.

We purchase only the finest wines, in bulk, thoroughly aged. We do our own bottling—guaranteeing the purity and quality of every bottle of wine bearing our "El Camino Real" or "Delta" brand.

If you want a sound Claret or a splendid Riesling, you can get them in our Wine Department. Though the price of wines has advanced generally, owing to the San Francisco disaster, our prices remain unchanged.

KEARNEY LEFT SECOND WILL.

Latest Document Is Discov-
ered at His Castle.

Names New Executor for the
Immense Estate.

Fifty Dollars Offered Widow
Who Proves Title.

(BY THE ASSOCIATED PRESS.—P.M.)
FRESNO, May 31.—A second and
last will of the late Kearney, the
Fresno capitalist who died a few days
ago while on his way to Germany for
his health, was found this morning at
Kearney's Castle on his estate ten
miles west of here and filed by Atty.
W. K. Harris and Manager Friele of
the Kearney ranch this morning.

The provisions of the will are prac-
tically the same as the will discovered
in San Francisco yesterday. The
property is left to the University of
California.

Mr. Kearney made two wills. The
first, written at the St. Francis Hotel
in May, 1904, named the Union Trust
Company as the executor and also
mentioned William F. Alvord as a
trustee.

NAMES NEW EXECUTOR.
In the second, which was made in
November of last year at the Chateau
Fresno Park, the Mercantile Trust
Company of San Francisco is named
as executor and the name of Prof.
E. W. Hilgard is substituted for that
of Alvord.

The news that Kearney had changed
his executor did not create much sur-
prise, for he frequently changed his
lawyers, as he did his lawyers, and he
never assigned a reason for his action.

There is no mention made in the
will as to where his body shall be
interred.

Kearney left to the State University
property which is valued by the ex-
ecutor at \$1,000,000, which yields an
annual income. The estate also
yielded a gross annual revenue of
\$100,000, and the income from the
sale of the estate was between
\$100,000 and \$150,000 a year.

LEFT FINE ESTATE.
Kearney spent money lavishly on
his estate and careful management
will make the net income much larger.
The sum of \$50 is left to any woman
who can successfully claim to be his
widow.

Another sum of \$50 is to be given
to any child, male or female, who can
successfully claim to be his child.

In case the will conflicts with the
provisions of the Civil Code (Section
115) the following provisions shall have
the first use of the estate: William F.
Alvord (now dead), James D. Phelan,
W. H. Crocker, John Parrott and John
D. Grant.

Special letters of administration
were granted to the Union Trust Com-
pany this morning by Judge Austin.
According to the terms of the will,
the will was before the second
will was filed.

Prof. E. W. Hilgard, of the firm of Hel-
ler, Powers & Egan, arrived here last
night in behalf of the Union Trust
company. When he learned that the
will had named the Mercantile Trust
Company as executor of the estate,
he said that there would be no
objection.

(BY THE ASSOCIATED PRESS.—A.M.)
OAKLAND, May 31.—Miss Isabella
Davis, the pretty stenographer who
was shot yesterday by a fellow who
aimed a gun at the City Hall at
San Francisco and fired one shot at
Senator Simpson, has been arrested.

She made the following statement
after her arrest:

"The only regret I have is that I

ROYALTY'S WEDDING.

(Continued from First Page.)

A Spanish product, in fabric and finish, except for the wonderful Brussels lace, which has been brought to adorn it. It was a fancy of the King and the Queen, and the wedding dress should be made in Spain, and the Princess Ena graciously fell in with this patriotic sentiment.

The dress is, therefore, one of the special presents from the King, and is a marvel of elegance. The silk was manufactured from a special pattern in one of the large Spanish silk establishments. It was made up with all the artistic skill of the court dressmakers. The silk is heavily overlaid with wonderful silver embroidery, with soft frills of the finest Brussels lace, said to have cost \$50 a yard.

The lace was publicly exhibited before being put on the dress, and excited the admiration and astonishment of the aristocratic ladies of Madrid. Orange blossoms are profusely used for the corsage, and even in dainty clusters along the train, which is four yards long. According to Spanish traditions, the bride must afterward present his wedding dress to the Virgin de la Paloma, the popular protectress of maternity.

The wedding cortege started from the royal palace at 2:30 a.m., and the ringing of church bells, the firing of artillery salutes and the clamorous enthusiasm of the crowds massed along the route. Ahead rode trumpeters in crimson velvet suits of the time of Philip II, sounding the approach of the royal party.

ROYAL HOUSEHOLD.
Following them came the personnel of the royal household, the heralds mounted on stallions from the royal stud and caparisoned in oriental style, each led by a cadet of the royal riding

representatives of all the royal houses of Europe. Closing this dazzling array of princes appeared a coach bearing the royal crown, in which were seated King Alfonso, his wife, Princess Ena, and the King's little nephew, Prince Alfonso, the actual heir to the throne of Spain.

PEOPLE SHOW EMOTION.
The appearance of the Princess who was about to become their Queen, aroused the people to the highest pitch of emotion, men and women cheering and shouting friendly salutations, while others from the balconies of the houses along the route showered flowers on the Princess and let loose hundreds of pigeons carrying long bright streamers. The bride looked most charming and graciously acknowledged the continued ovations.

BANDS PLAYED.
The massed bands played the Spanish national anthem as the bridal couple, with measured steps, passed within the church. The interior of the church presented a scene of rare beauty, as the royal couple entered. The great arches and nave, usually sombre, were lighted up by thousands of electric lights which lined the cornices and framed the marble altar with an aureole of light.

AMERICAN ENVOY PRESENT.
Mr. Whitridge, the American special envoy, who was in evening dress, sat among the other envoys, and Minister Collier and Mrs. Collier were seated with the resident diplomats. The wife of the American Minister, who was the only American woman present, wore a Parisian court gown of white lace, over white satin, embroidered with silver roses. Mrs. Whitridge and Mr. Collier were conspicuous owing to the fact that they did not wear uniforms.

BRIDE ENTERS.
The bride entered with her mother,

representatives of all the royal houses of Europe. Closing this dazzling array of princes appeared a coach bearing the royal crown, in which were seated King Alfonso, his wife, Princess Ena, and the King's little nephew, Prince Alfonso, the actual heir to the throne of Spain.

Among the many tea gowns is a beautiful one of the palest pink mousseline de soie made in the Empire style. Another is a pale yellow Empire gown veiled with white tulle. The large bell sleeves are entirely of frills of lace, and round the short waist are pale yellow ribbons threaded through embroidery. There is a handsome evening coat of pale biscuit-colored faced cloth, with a hood composed of Valenciennes lace, dyed to match the cloth. Among the evening gowns is a short-waisted one of pale mauve mousseline. Another Empire evening gown is of white silk mousseline, flowered all over with tiny clusters of pink roses.

SCENE OF WEDDING.
SAN JERONIMO EL REAL CHURCH (BY THE ASSOCIATED PRESS.—A.M.)
MADRID, May 31.—The church of San Jeronimo el Real, where the nuptial mass was celebrated, and the marriage benediction pronounced, is a

quaint old structure, which has passed through some strange vicissitudes. This is not the first royal marriage celebrated there, for the wedding of Isabella II took place in great pomp within its walls. But more recently the church was abandoned to a carpenter's shop and planing mill, and the whir of saws took the place of the solemn measures of the mass.

The origin of the church was one of the strange whims of the old King of Castile, Henry IV. He had set up a magnificent tournament on the Pardo road, to celebrate the arrival of a new British ambassador. The tournament was notable for the courage displayed by the King's favorite, Beltrán de la Cueva, who not only unhorsed four knights, but also, single-handed and on horseback, with a small javelin, conquered and killed an infuriated bull, which had torn to pieces the greatest toreros of Spain. The King, to commemorate this event, founded a monastery, which the Jeronimo friars inaugurated. Later Isabella, the Catholic, shifted the site of the monastery to its present place. Here it became the Royal chapel, and during the gay era of Philip IV all the royal alliances and ceremonies took place there. At another time the Cortes met there.

THE WEDDING PRESENTS.
RARE AND FROM EVERYWHERE. (BY THE ASSOCIATED PRESS.—A.M.)
MADRID, May 31.—The presents for King Alfonso and his bride came from all quarters of the globe, from countries and their rulers, from provinces and cities, and even from school children of Spain who have contributed their mite to show their loyalty to the King. Some of these gifts are as follows:

The Queen mother presents the King her portrait painted by Moreno Carbonero. The City of Madrid gives an artistic present in the form of establishing a workmen's quarter which is baptized in the name of "Queen Victoria Eugenia." The Mayor of Madrid has sent all the Mayors of Spain to sign an artistic album expressing their homage to the young couple. The manufacturers of Barcelona have presented the bride with a diadem of diamonds valued at 150,000 pesetas.

The presents from royalty are notable mainly for their elegance and taste rather than their intrinsic worth, although some of them are of great value. The Emperor of Germany sends some splendid hunting trophies, made of the heads of wild boars and stags which Alfonso killed during his hunt in the imperial hunting preserves of Germany. France sends some of the finest productions of Sevres porcelain and the Gobelins tapestries of the famous sculptor, Marianna Beulieu, ordering busts of Alfonso and Isabella in bronze, and a miniature 50,000 pesetas.

A Queen Christina presents the bride a precious coat mantle which has been longed to Queen Isabel II of dark red velvet wonderfully embroidered in gold. The bride's presents from the Spanish aristocracy include many historic jewels, fine old fans, lace and porcelain. The daughter of the Duke of Alba sent her a gold waist buckle set in rubies. The presents from the people of Spain show the sympathy with which they receive the foreign Princess. The school-teachers throughout the country have subscribed a large amount for a sumptuous edition of Don Quixote, accompanied by a message of felicitation on parchment.

The friends of the King at Biarritz have united in making a truly royal

gift of the Villa Mourisot and its splendid estates, where the royal courtship began. The English residents are vying with the Spaniards in giving presents. The English colonies of the interior towns having raised 100,000 pesetas for a diamond and pearl necklace. Many of the presents from rulers and state are yet to be announced.

LA GRANJA.
SCENE OF HONEYMOON. (BY THE ASSOCIATED PRESS.—A.M.)
MADRID, May 31.—The castle which Alfonso and his Queen have chosen for their honeymoon is the Spanish

palace is situated at the foot of the imposing Pico de Penalarra, in the Guadarrama Mountains, high above the sea level. The little village dates from the ancient times, when Henry IV built a chapel there and dedicated it to St. Lidefonso. Later, the friars of the Pardo Monastery established here a farm (La Granja), which so much suited the fancy of the first Spanish Bourbon, Philip V, that he bought the place and erected a magnificent palace with surrounding parks, in the style of his French native country. The fountains and waterworks then established and still running are not surpassed by any other royal possession in Europe.

Great Railroad Wreck

Piano Sale

Read Why

A lot of pianos in transit to us were smashed in a wreck. Their makers said, "The pianos are ruined." The railroad companies said, "We're in for it—let's settle the best we can."

When we opened the cases we found thirty-eight instruments reduced to scrap. Others were scratched here and there; some badly, the rest very slightly. But you can see for yourself—they are here before you, in our salesroom—both the "total wrecks" and the "partially disabled" ones. These latter are in fine mahogany, walnut and oak veneers, and a large variety of styles and sizes.

In many instances the case is only slightly marred, the interior not having suffered at all. The railroad companies have paid for all damages, and we are offering the lot at the appraised valuation. A little scratch in the varnish, a little dent in the case, the absence of a bit of moulding, will save you from a third to a half of the ordinary price on a brand new high grade piano.

We Will Not Sell Nor Offer For Sale

any piano that is not in perfect condition, except for the slight scratches and mars on the case, and every instrument goes to the purchaser with an absolute guarantee as to material and workmanship.

A large mass of the wreckage is on exhibition at our store, and the public is invited to call and inspect it whether they wish to buy or not. Open evenings.

King Alfonso and Queen Ena in royal attire on occasion of his recent match-making visit to Germany.

The royal nuptials—Scenes, people and episodes of the historic affair.

academy are the equestrian and grooms from the royal stables, leading the King's favorite horses with gold-embroidered saddles, cloths and colored plumes, accompanied by pages and riding masters and all the bewildering equipment of the luxurious court.

Next came a long line of gala coaches of the Spanish grandees, each of a distinctive color, with panels richly painted, gilded and jeweled and drawn by magnificent horses in silver harness, adorned with tall plumes, matching the livery. Within rode the nobility of Spain; the men with their breeches covered with orders and the women in wedding attire.

But the brilliancy of this part of the cortege was far surpassed when the famous royal gala coaches came into view, each drawn by eight superb white horses with golden and silver harness and lofty colored plumes, looking like the coaches depicted on some illuminated page of a fairy book.

These coaches formed one of the most striking features of the cortege. They were marvels of luxury, some of tortoise shells, others of mahogany, set with panels painted by famous artists—all ornamented with precious metals and embellished with the royal insignia. They were relics of bygone days when kings and queens rode in golden vehicles but they had been renovated in all their original splendor for this occasion.

INTERESTING COACHES.
The most interesting coaches were the Amaranth coach for the court ladies; the Cypher coach for the lords in waiting; the coach of the Ducal crown, for the infant, and the shell coach for the Queen mother.

All the trappings and surroundings of these magnificent vehicles were in keeping. They were drawn by teams of six and eight white horses, well matched and of the finest breeds. About these glittering vehicles circled masses of groomed, eager heralds and others in the showy uniforms of Louis XIV.

The coaches of the Spanish grandees were hardly less remarkable than those of royalty, the main difference being that they were drawn by only two horses, according to rigid rule. Some of the most notable of these coaches were as follows:

ROYAL REPRESENTATIVES.
Following the coaches of the Spanish princes and infants were those of the visiting princes, including the Prince and Princess of Wales, the Archduke and Archduchess Francis Ferdinand of Austria; the Grand Duke and Grand Duchess Vladimir of Russia; Prince Albert of Prussia and Prince Albert of Belgium, and

brother and Queen Christina, the silver-embroidered of her wedding dress reflecting the myriad of lights until the bride seemed to be robed in jewels. Her veil, slightly drawn aside, revealed her clear, fine features, with cheeks of youthful color.

BRITISH FIRE SALUTE.
LONDON, May 31.—Royal salutes of twenty-one guns were fired at the naval and military stations at home and in many of the colonies today in honor of the marriage of Princess Ena to King Alfonso and the wedding decorations with bunting. At Windsor Castle, Buckingham Palace and the St. James Palace, the bands were especially turned out and played the Spanish national anthem during guard mount.

THE BRIDAL TROUSSEAU.
MOSTLY MADE IN LONDON. (BY THE ASSOCIATED PRESS.—A.M.)
MADRID, May 31.—Except the wedding dress, all the bridal trousseau of robes, cloaks, evening and tea gowns, petticoats and underlinen, were made in London, where many of the dresses have been on exhibition. Some of the articles of this queenly trousseau are described as follows:

A dainty dress of white mousseline de soie flowered with miniature roses. A morning gown is of fine spotted lawn over palest blue, inset with Valenciennes lace. A beautiful Princess robe is in spotted lawn, made to wear over many different colored slips. A charming pale blue China silk Empire morning robe is fastened in front with blue buttons and ends. Another morning gown is of white lawn over pale blue, inset at equal distances with Valenciennes lace. A smart morning gown is composed entirely of English embroidery in a very openwork design.

Among the simple day gowns are many composed of linen. The bodices in many instances are made after the American blouse style, with touches of red and blue embroidery. One of the many dressing jackets is made of the palest blue and white Zecca edged with quaint silk embroidery. A handsome day dress is composed of ivory crepe de Chine, the bodice arranged with the finest Guipure lace and tucked squares of crepe de Chine, the centers of which are delicately embroidered with colored beads and set together with ivory.

Arizona and New Mexico Citizens to Decide.

Original Foraker Amendment Will Be Recommended.

Conference Report Is to Be Made by Saturday.

(BY THE ASSOCIATED PRESS-P.M.)

WASHINGTON, May 31.—The Republican managers in the House today stated that the conference report on the Statehood bill would be made tomorrow, or at the latest Saturday. This report will be an agreement on the basis of the Foraker amendment of a year ago, which provides that the people of Arizona and New Mexico may vote on the question of joint Statehood at a regular election held for the purpose of electing a delegate to Congress. The amendment is to be reported exactly as it was introduced a year ago by Mr. Foraker in the Senate.

BILL PROVIDES FOR COPYRIGHT.

NEW FEATURES OF THE PROPOSED LAW.

Oral Lectures and Drawings or Plastic Works of a Scientific Nature are Added—in Musical Compositions Protection is Afforded for Devices Producing "Ear" Music.

(BY THE ASSOCIATED PRESS-P.M.)

WASHINGTON, May 31.—Senator Kittredge of South Dakota and Representative Carrier of New Hampshire today introduced in the Senate and in the House, respectively, the Copyright Bill, which has been compiled by the Copyright Commission, under the direction of Librarian Putnam of the Library of Congress.

The manufacturing clause is continued, but with the omission of photographic negatives, so that an American photographer may secure copyright here upon a photograph taken abroad.

The bill includes the texts of books produced by lithographic process and also the illustrations, except where the objects represented are located in a foreign country.

American copyright is extended to foreign authors where they are residing in the United States at the time of its publication, or where they first or contemporaneously publish the work in the United States.

Among the designated classes in the registration are two groups not heretofore mentioned—oral lectures and drawings, or plastic works of a scientific or technical nature. There is a class, "works of art."

In the case of musical compositions, specific protection is afforded against "devices especially adapted to reproduce to the ear" such compositions.

The bill provides for a graduated term, consisting of twenty-eight years or fifty years, or the lifetime of the author, and fifty years after his death, dependent upon the subject matter.

The term of twenty-eight years is for labels and prints relating to articles of manufacture.

The term of fifty years applies to composite works of art or publications. The longest term applies only to original works.

Senator Flint and Representative Smith reach agreement on Amendment to Martin Bill Which Exempts Seventh and Eighth Districts but Which Allows Settlers to Locate on the Other Reserves.

(BY DIRECT WIRE TO THE TIMES)

WASHINGTON, May 31.—(Exclusive Dispatch.) Senator Flint and Representative Smith today reached an agreement concerning the amendment to the Martin bill throwing open the California forest reserves to homestead entry. It provides that the Seventh and Eighth Congress districts shall be exempt from the provisions of the bill. Farming land in reservations elsewhere in the State will be open to homesteaders. The Martin bill is in conference and it is expected that a report on it will be made as soon as the Flint-Smith agreement can be incorporated.

Flint favored opening all the reservations to homesteaders, but Smith was opposed on the ground that the California Government was making cattle grazers liable for damage to crops done by herds, would destroy the value of the reserves as cattle ranges. The agreement was a compromise.

The House Public Lands Committee today ordered a favorable report on the bill transferring the title of the so-called Quartzite tract of land to the city of Monterey. This bill has been claimed by the government ever since the Mexican War, but has never been used to any extent except to give the city of Monterey the benefit of ownership as well as the use of the land, which amounts to an acre or two.

TARBELL RETAINS POSITION.
Appointed to Succeed Himself as Vice-President of the Equitable Life.

(BY THE ASSOCIATED PRESS-A.M.)

NEW YORK, May 31.—After a meeting of the board of directors of the Equitable Life Assurance Society in this city today, Paul Morton, president of the society, reappointed Gage E. Tarbell as second vice-president. President Morton also appointed a new committee, the Finance Committee, composed of himself, E. B. Thomas, T. Devereux Cuyler, Frank E. Weatherbee and James McMahon.

The board of directors re-elected President Morton and elected former Vice-President William A. Day, vice-president. The board approved the form of the amended charter of the society proposed by a majority of its directors.

AMERICAN VICTIM
OF ADVENTURER.WICHIGAN MAN MURDERED ON
BORDERS OF MONGOLIA.

Frenchman Calling Himself Vi-
cente Is Verger Returns at Night
from Lake, Bringing With Him the
Rifle and Saddle-Bags of Morley,
Then Cashes Credit Letter.

(BY THE ASSOCIATED PRESS.—A.M.)

PEKING, May 31.—Reuben Morley of Saginaw, Mich., was murdered on the border of Mongolia, 400 miles north of Peking, on September 3 by a French adventurer styling himself Vicente La Verger, with whom he was traveling.

John Morley of Cleveland, O., returned today from an expedition following his brother's route during which he obtained convincing evidence from French missionaries and Chinese, showing that Reuben Morley left a Chinese inn on the morning of September 1 to visit a lake ten miles distant.

The Frenchman returned at night with Morley's rifle and saddle bags and told the servants that Morley had preceded alone to Mongolia.

The Frenchman was seen burning Morley's papers, and Mongolia found Morley's pack horse, carrying his packs, among a herd of wild horses.

Weeks afterward a man resembling La Verger cashed Morley's letter of credit at Chongchun, Ceylon, and sailed for Europe.

The presumption is that he either shot Morley or drowned him in a lake.

CRIME BRIEFS.

Ships Knife Into Her Neck.

BUFFALO, May 31.—Early today, Mrs. Joe Campbell was killed in the Barnes Hotel, a theatrical boarding-house on Port street. Her husband is under arrest, charged with murdering her. They had quarreled, and the man, it is alleged, slipped a knife into the woman's back, back of the ear, when she lay in bed. She died in two minutes. Campbell waited for the patrolman who was called to arrest him. The woman owned the boarding-house.

NORTHWEST CATTLE RAISERS
WANT INSPECTION.

Declare Their Packing Plants Man-

and State Suspension of Unsanitary
Conditions Means Loss on Export
Product Which Falls on Them.

(BY THE ASSOCIATED PRESS.—A.M.)

STOCK CITY, May 31.—Representatives of the stockmen of the northwest express the bill now before Congress, extending government inspection over domestic and export meats on the ground that a more rigid inspection law would mean a great loss to the cattlemen are repudiated by J. J. Ryan of Fort Dodge, Iowa, secretary of the Corn Belt Meat Producers' Association, and Murdo MacKenzie, president of the American National Stock Growers Association.

"More rigid government inspection will increase our export trade," declared Mr. Ryan here yesterday. "We turn out the best quality of meats in the world, and we should have no suspicion cast on the sanitary condition of our packing plants or that diseased animals are used. Such suspensions already have cost us much in export trade."

"Much loss is sustained by offering for export meats of questionable quality, and the loss falls on the stockmen as much as the additional cost of inspection would fall on the cattlemen," said the secretary of the association. "The government should pay the expenses of inspection. Murdo MacKenzie expressed the opinion that the government should pay the inspection charges, but that the bill for a more rigid inspection is a good thing all around."

CONDITIONS IN NEW YORK.

(BY THE ASSOCIATED PRESS.—A.M.)

NEW YORK, May 31.—Dr. Thomas Farrington, president of the department of health, began today a personal investigation into packing-house conditions in this city. He promised last night that it would be thorough.

"From the reports which have reached me from my inspectors," he said, "the situation here is not as bad as had been painted and nothing like the situation which prevails, according to all reports, in the Chicago packing-houses."

"That everything is not as it should be, however, may not be converted. With even the small force of inspectors at the command of the department, we have but six men—most are constantly being condemned. There has been an unusually large amount of meat thrown out recently and it goes without saying that a force of half a dozen inspectors is entirely inadequate."

"Last week I asked for at least fifty additional inspectors. It does not seem necessary to follow that they will be detailed to meat inspection, for there is less demand for watches in the packing-houses at some periods of the year than there is at others. Just at this time we need a large force, as it is 'hot-veal' season."

"I am unable to say how long it will take me to complete my investigation of the packing-houses here, I will not stop until I have gone into every detail of the business."

NO TAINTED MEAT.

(BY THE ASSOCIATED PRESS.—A.M.)

CHICAGO, May 31.—Dr. E. E. Bennett, chief government inspector at the stock yards in this city, in speaking of the present meat agitation, yesterday reiterated with emphasis his assertion that "not a pound of tainted meat comes into the local market."

THREE DROWN IN COLLISION.

Erin Is Cut in Two by the Steamer

and Sinks.

(BY THE ASSOCIATED PRESS.—A.M.)

DETROIT, May 31.—The steamer Erin, up-bound, and towing the schooner Danforth, was run into and cut in two by the steamer Cows in the St. Clair River, just below St. Clair early today, and three of the Erin's crew were drowned.

CATARRH A GERM DISEASE

Breathe Air Medicated by Hyomel
and Kill the Germs.

Now that physicians and scientists
universally agree that catarrh is a
germ disease, the reason for the failure
of the old-fashioned stomach-dosing
in this trouble is readily seen.

Prior to the discovery of Hyomel,
a treatment which cures catarrh by
filling the air you breathe with germ-
killing and healing medication, statisti-
cians showed that at least ninety-seven
out of every hundred persons in this
State were suffering from catarrh of
some form.

The treatment with Hyomel is very
simple and pleasant; a small inhaler
comes with every outfit and three or
four times a day Hyomel is breathed
through this, making the air at that
time like that found on the mountains
where the pine forests give off their
fragrant and healing balams.

Used in this way, Hyomel pene-
trates to the most remote cells of the
nose, throat and lungs, absolutely
killing all catarrhal germs and effecting
a complete and permanent cure
of the disease.

The complete outfit costs but one
dollar, while extra bottles can be ob-
tained for 50 cents.

If you cannot obtain Hyomel of your
dealer, it will be forwarded by mail,
postage paid, on receipt of price.
Write today for free sample bottle
and consultation blank that will en-
title you to services of our medical
department without charge. The R.

HOTEL GUESTS IN PANIC.

Lives Saved in Chicago by Bell Boys,
Who Arouse Sleepers—Damage
Slight.

(BY THE ASSOCIATED PRESS.—A.M.)

CHICAGO, May 31.—Fire starting in
a clothes closet on the second floor
of the Windsor-Clifton Hotel, Monroe
street and Wabash avenue, shortly be-
fore 3 o'clock this morning, spread
between the walls to the fourth floor.
The fire was discovered when smoke
penetrated the room of a guest on the
third floor, who notified the night
clerk.

The bell boys were ordered to arouse
all guests and assist them to safety.
Edward Rice of St. Louis, one of the
first guests awakened, ran to the ele-
vators and assisted the night watch-
man in awakening guests and assist-
ing women from their rooms.

A panic among the guests followed
the discovery of the fire and many
fled half clad into the office of the
hotel. Others even less clad ran to
the fire escapes and prepared to leave
if the fire spread. Policemen were
sent to guard the property in the ho-
tel.

The firemen prevented the spread of
the flames beyond the fourth floor.
Estimated damage \$2000.

MORE RUSSIANS HEAD THIS WAY.

ADDITIONS COMING TO LOCAL
MOLOKANE COLONY.

Fifty Families En Route from Na-
tive Land, While Several Have Re-
turned from Hawaiian Islands, Which
Did Not Suit Them—Half-Hundred
Recent Arrivals.

In spite of the scattering to Hawaii
and Lower California of members of
the local Molokane colony, its numbers
continue to increase. Within the last
few days fifty additional men, women
and children have arrived in Los An-
geles and have joined their countrymen
in the settlement down near the river.
Fifty families, numbering at least 200
persons, are on their way from Rus-
sia, and are expected here within three
or four weeks.

With the additions that have come
in small companies from week to week
for several months, it is estimated that
there are now upward of three hun-
dred families in Los Angeles. Indica-
tions now are that this is the prom-
ised land which the oppressed people
have sought, for the latest arrivals from
Hawaii are that those who went to
these islands a few months ago are not
satisfied with the change.

One of the forty-three families that
arrived for Honolulu have returned to
Los Angeles. They report that they do
not like the climate of the islands
and that it is too hot and too warm for
them. It may be that those who went
out to the gem of the Pacific will re-
turn.

Although hampered by their unfa-
miliarity with the English language,
the Russians are accommodating
themselves quite easily to conditions
here. It is said that practically all the
able-bodied men have work, while such
women that are not required through
domestic duty to remain at home have
little trouble in obtaining employment
in factories and in other places where
a sturdy physique makes their serv-
ices valuable.

Many of the men of the colony are
employed in lumber yards and other
places where heavy work is done. It is
said they earn from \$3 to \$5 a day.

Some of the younger men and
women have work in laundries, and
members of this contingent are fall-
ing rapidly into American ways. Some
of the youths, especially, have dis-
carded the odd garb of their fathers.
Instead of bright-colored shirts worn
outside their trousers, they tuck in
the tails, wear collars and hats.
They shave, too, and have their hair
cut at barber shops instead of having
it trimmed at home with dull shears.
With the edges of a much better
the guiding lines—the method appar-
ently practiced by some of the older
members of the colony.

The younger colonists, too, are tak-
ing readily to the English language,
being assisted materially in lingual
mastery at the night school main-
tained for their benefit at the Eth-
nic-Lafayette Industrial School on
Lafayette street.

Numbers of the immigrants now
are sending money to relatives in
Russia, to pay their passage to the
United States, and otherwise to assist
them in getting out of the country.
One no longer love. One of the Mo-
lokane a few days ago sold a handsome
samovar—the finest piece of Russian
work—needed for \$20, sending the money,
more, to a relative in the old
country.

There has been some hesitancy on
the part of some of the men of the
colony to prepare themselves for
naturalization. The Molokane is
a lover of peace—a Quaker
in many ways—and he is particularly
averse to war or fighting of any kind.
Some of them have an idea that, if
they become American citizens, they
may be impressed for army service,
and for this reason they have held
back from taking out naturalization
papers.

POSSES SEARCH FOR MONROVIAN.

BLACKSMITH INJURED BY FALL
DISAPPEARS STRANGELY.

Searching Parties Searched Country to
Find Jacob Meister Who Is Thought
to Be Demented as Result of Hurt
Received in Wrestling Contest. He
May Have Fallen Ill.

SPECIAL CORRESPONDENCE OF THE TIMES.
MONROVIA, May 31.—Searching
parties are seeking diligently through-
out the country east of town for Ja-
cob Meister, a blacksmith, missing
since Sunday, as the result, it is be-
lieved, of his mind being affected by
his being thrown heavily in a friendly
wrestling bout Sunday afternoon.

After the wrestling match Meister
returned to his room. An hour or so later
Reese of Duarte met him going
from Monrovia. He stated that Ja-
cob, Meister, was on the right road
to Cincinnati. Reese thought that
Meister was joking and paid little at-
tention to the question.

The missing man had been in the em-
ploy of W. E. Tugger for the past two
years. He was somewhat addicted to
drink, and Tugger did not think his
appearance for two or three days
was strange.

When Meister had not shown up for
several days searching parties were in-
stituted. A large party headed by Mar-
shall Miller is now scouring the country.
It is feared that he may have fallen
ill and died or that he is ill and un-
able to rise.

It does not appear that the missing
man intended to leave here, as he had
paid a week's room rent in advance
and took no clothes other than those
worn. Nothing has been discovered
showing that he had any reason for
leaving the town. He is an Odd Fel-
low and has a brother in Indiana. He
is smooth shaven, dark of complexion
and about 30 years of age. His height is
5 feet 5 inches, and weight 165 pounds.

STRUCK BY CAR.

Witzel Walks Directly in Front
of a Suburban Flyer and Escapes
With Severe Hurts.

Charles F. Witzel was struck and
seriously injured last evening by a
sub-bound Santa Monica car near
corner of Twelfth and Hill streets.
Witzel was on his way to the home
of his brother and alighted from a
sub-bound car of the West Adams
line at the corner. He jumped
out the rear door and ran around
near end of the car and attempted
to cross the street.

Witzel was not aware of the approach
of the suburban car and ran directly
into it. He was hurled to one
picked up unconscious and hur-
ried to the Receiving Hospital, where
examination showed that he had
suffered a fractured rib, a deep lacer-
ation of the left eye and numerous
bruises besides a severe
wound on Mr. Witzel's employed
by the H. Jevne company as a solicitor
shakes his home at No. 425 West
Fourth-street.

DR. MOORE WARNS GRADUATING NURSES.

Twelve Demeure Young Women Listen to Professional Advice at the Commencement Exercises of the California Hospital Class for Nurses in Blanchard Hall.

A dozen demure nurses in white caps and gowns sat on the platform at Blanchard Hall last night and listened to the counsel of a lawyer and the advice of a physician as to their calling, duty and future prospects. It was the eighth annual commencement of the California Hospital Training School for Nurses, and these young women of pluck, perseverance and patients swell a total of more than 140 graduates who have received diplomas from this institution.

The hall was filled with an interested crowd. Some of them were former patients at the hospital and had been ministered to by these young women; others were post-graduates, and there was a large representation of the doctors themselves, their wives and daughters. A grand orchestra lent its gay music for the occasion, and a perfect bank of flowers arose before the footlights—tributes of affection from the graduates.

Dr. Walter Lindsey presided and referred with feeling to the recent death of Dr. C. F. Taggart, one of the incorporators of the hospital and a faithful friend to all connected with it. Dr. William E. Young offered the opening invocation and Capt. J. D. Fredericks made the address to the graduates.

Speaking directly to the class he said in the outset that the number—twelve—made him feel very much at home. He pointed out the advantage and necessity of following a specialty in this age, when success in any particular depends upon the absolute perfection one brings to his profession.

He spoke appreciatively of the brave young women who have come to walk in the shadow of suffering rather than in the sunlight of easy life.

DUTIES OF NURSES.
Dr. M. L. Moore made the address to the class on behalf of the faculty, and some of his remarks were exceedingly timely. In the beginning he asked the authority of Mr. Dooley, who emphasized on the comparative worth of medical men and Christian nurses to the effect that if the latter had a little more science and a little more Christianity, and if we had a good nurse it wouldn't matter much which you called in.

He then briefly traced the history of nursing from the time of St. Vincent of Paul in 1633 to the present. The nursing preliminary training school was founded in 1891 in Germany, where Florence Nightingale received a good part of her training. Her work in the Crimean war led to the establishment of the Red Cross Society, the splendid results of which are now witnessed at San Francisco.

Dr. Moore gave some excellent advice to the graduates when he reminded them of their duties and obligations as nursing women. He said that the most important thing required them to treat the members of the patient's family with courtesy and consideration.

He also reminded them that the profession of nursing is not a matrimonial one—a misapprehension indulged in by foolish young women. He instructed the nurses in the name of duty and dignity, not to be silly over their men patients and indifferent toward the ill of their own sex.

In conclusion, on behalf of the visiting members of the hospital board, he congratulated the graduates and their instructors on the completion of their very creditable course of training.

Diplomas were presented by Dr. P. Jackson, who had been president of the hospital board, to the following young women, who compose the class of 1906: Misses M. A. Arnold, Edna Carter, Edna McKay, Sallioy, Gertrude, Edna, Elvanda, Ida, Margaret, J. J. and Pauline M. Sudow, New York City.

DUMPED BY A BALKY BALLOON.
Aeroplane Pilot Finds the Gas Too Heavy to Carry the Apparatus and Cuts Them Away, Tying Himself to the Rigging—Is Dashed Head Until Unconscious.

NEW YORK, May 31.—A Tyrolean named Wartcher left Coney Island yesterday in peculiar fashion. After two minutes later, after a noisy and somewhat dangerous flight, he was picked up unconscious bleeding on Black Hill Marsh.

Wartcher's balloon was anchored to a sand bag which he took in. He stood over the work of fitting the great bag with 25,000 feet of rope. The man in the basket was found to have been a German.

The balloon was full of gas and was being inflated. Wartcher was seen to be struggling with the ropes. He was picked up by a crowd of people. He was taken to a hospital. He was found to be unconscious. He was taken to a hospital. He was found to be unconscious.

It was sighted from Bergen Beach and finally from Rockaway Beach. Wartcher had let out some of his gas and struck a lower breeze, which luckily bore him to the land. As he approached the beach he tried to land the balloon. The upward roll of the air current carried him clear of the narrow land strip, barely ten yards above ground and out upon the waters of Jamaica Bay.

As he drifted out northward over the bay, watching yachtsmen tumbled into their craft and gave pursuit. But the breeze was brisk and the balloon disappeared.

His course was erratic and dangerous for the aeronaut. The balloon would rise perhaps fifty feet and then plunge down to the water, when it would strike the waves broadside and scatter spray only to bound up again like a great elastic ball.

Wartcher had strapped himself to the wooden ring with his leather belt. After a while the balloon stopped leaping, and rolled along the surface of the water with the aeronaut helplessly and tangled in the cordage, now above water and now under.

Finally it stranded in the long grasses of Black Hill Marsh, where three fishermen slashed up the silk with their knives. Under the mass of the aeronaut, unconscious from the water and escaping gas. They revived and clothed him. He was painfully bruised and still suffering from the effects of the gas.

RULE OF PEACE IN THE FUTURE.

CARDINAL GIBBONS SEES HOPE IN ARBITRATION.

Addressed Lake Mohonk International Convention and Declares That Disputes May Be Settled on the Battlefield and Standing Armies Will Not Be Needed Later.

[BY THE ASSOCIATED PRESS.—A.] LAKE MOHONK (N. Y.) May 31.—The address of Cardinal Gibbons on "The Rule of Peace" was the leading feature of the third session of the Lake Mohonk conference on international arbitration, today.

Cardinal Gibbons said that he wanted to discuss the faint-hearted that Christ's mission on earth to establish peace had failed, and to show that, on the other hand, His mission had made decisive and reassuring progress. He said, in part:

"Let us cherish the hope that the day is not far off when the reign of the Prince of Peace will be firmly established on the earth, and the spirit of the gospel will so far away the minds and hearts of rulers and cabinets that international disputes will be decided, not by standing armies, but by permanent courts of arbitration—when they will be settled, not on the battlefield, but in the halls of conciliation, and will be adjusted, not by the sword, but by the pen, which is mightier than the sword."

SUPREME COURT EXAMPLE.
Clifton R. Breckenridge, ex-Minister to Mexico, said:

"The great arbiters of our disputes is the Supreme Court of the United States. For more than one hundred years this august body has been the great anchor, not only of the Union, but also of the States. Cannot a similar and permanent body of illustrious men sit and command in some like manner the reverential obedience of nations?"

Representatives of Rhode Island and Bates of Pennsylvania and Charles Hamilton of Boston, ex-Assistant Secretary of the State, discussed the Hague conference. The session tonight was devoted wholly to three-minute speeches by members of the Chamber of Commerce representatives from all over the country, showing the work that is being done by the Business Association in practical promotion of international arbitration.

DIED PRAYING FOR IRELAND.

In His Will, David Left Kind Thoughts for Friends, Forgiveness for Enemies.

[BY THE ASSOCIATED PRESS.—A.] DUBLIN, May 31.—The funeral of Michael Davitt has been fixed for June 2, and will be as private as possible, in respect to the expressed wishes of the dead patriot. His body will be interred at Glasnevin, County Mayo, his birthplace. The body will be removed to the Carmelite Church, where it will remain until Sunday.

Mrs. Davitt's will leaves his property to his wife absolutely and concludes: "To all my friends I leave kind thoughts; to my enemies, the fullest possible forgiveness and to Ireland my undying prayer for her absolute freedom and independence, which it has been my life's ambition to try to obtain for her."

Messages of sympathy are arriving from all parts of the world.

BET FARMERS WON'T BE BEAT.

OMAHA, May 31.—A petition was filed in the Federal Court today asking that the Standard Beet Sugar Company be declared bankrupt. May 3, C. W. H. Ferguson of Lincoln was appointed receiver for the company and the petitioners claim that since then steps have been taken to give certain creditors preference in the matter of payments. The petition is filed on the part of a number of farmers who furnished beets to the factory, and the Union Pacific Railroad Company, which held claims for freight. The Standard is one of the largest beet-sugar concerns in the West.

JAPAN AIDS HER EXPORTERS.
TOKYO, May 31.—It is definitely known that the Specie Bank, supported by the government, through the Bank of Japan, is prepared to credit Japanese exporters supplying Manchurian markets with cotton and other goods at 4 per cent interest. For those exporting goods to the amount of five million yen and upwards the rate will be made 4 per cent. This will place Japanese merchants in a specially favorable position, as the lowest average of interest at present is 7 per cent.

FEARFUL GALE VISITS HARBOR.
VALPARAISO, May 31.—The harbor was visited Tuesday by a fearful gale. The Chilean bark Antofagasta was blown ashore, the huge waves reducing her to small fragments in less than five minutes. The crew had just been saved by the regulation life boat. A shore boat with six men capsized late in the night. Five persons were drowned. The cutter Juan Fernandez was also wrecked but the crew was saved.

MEXICO TO IMPROVE PORTS.

EL PASO, May 31.—[Exclusive Dispatch.] The government of Mexico has contracted for the expenditure of \$65,000,000 for the improvement of the ports of Salina Cruz, on the Pacific, and Coahuila de Zaragoza, on the Atlantic. The larger part of the sum will be spent at Salina Cruz.

The Society of the Army of the Philippines will meet tonight at No. 317 South Broadway. Col. Moss will speak about his experiences in the service in the islands.

Thieves Tap Till.

The police were notified yesterday of the robbery Wednesday night of the drug store of McLean & Land, on North Spring street. The thieves took \$25 in cash that had been left in a drawer.

Death Natural.

In the matter of the death of E. E. Brown, the aged war veteran who fell dead in a street car on Wednesday, Coroner Trout yesterday gave a certificate of death from valvular heart disease.

Sigma Chi Banquet.

The Sigma Chi Fraternity will hold its annual banquet at Café Bristol this evening at 8 o'clock. About one hundred college men are expected to participate. Judge M. J. Conroy will be toastmaster.

College of Law Dances.

One of the features which will mark the close of the College of Law, U.S.C., for this term, will be the dance given in honor of the graduating classes at Kramer's this evening. The invitations are unique, being in the form of a certificate.

Bankrupt Tailor.

Rubin Ross, ladies' tailor, has filed a petition in bankruptcy in the United States Circuit Court. His liabilities exceed his assets, part of which is in unpaid taxes. He has \$112 in various properties, but all that is available is under attachment.

Woman's Baptist Mission.

The annual meeting of the Woman's Baptist Mission Society of the Los Angeles Association will be held in the East Side Baptist Church today from 10 to 4 o'clock. Among the speakers will be Mrs. Truman Johnson and Miss Ella Miller, from Burnham, and Miss Julia Austin of Chicago.

Club Luncheon Postponed.

The Stanford Club luncheon, which was to have been given tomorrow evening, has been postponed, and the Executive Committee has practically arranged for holding the same in connection with the visit of Dr. David Starr Jordan, president of the university, who will be in this city June 15. Dr. Jordan is coming to Los Angeles as one of the speakers of the commencement season.

May Be Caught Thief.

A dope fiend named W. H. Wiseman was arrested yesterday on suspicion of being the thief who has been stealing bags of cement from various contractors. He was caught by Detectives McKenna and McNamara, with a quantity of cement sacks in his possession taken without leave from the contractor, Gilman Moore Company. He had a horse and wagon that he had hired from a livery. He was locked up on a petty larceny charge.

Light-Fingered Boys.

Four boys were arrested on Wednesday night and taken to the City Jail by Patrolmen Burney and Lynch, charged with burglary. On the previous night the boys had broken into a grocery store near by and were robbed, and one of the quartette of boys gave the thing away to his mother, who then sold him with having too much candy and chewing gum. The four are Barney Duncan, Grant Roberts, George Nelson and Harvey Lawrence, whose ages range from 12 to 14 years. They are in the Detention House awaiting trial at the police court. They took pencils, paper and other like articles from the schoolhouse, and candy, chewing gum and tobacco from the store.
